GLOSSORY :

1. **Adharmamu** : The principles or precepts which do not form part of Divine precepts.
2. **Adwaithamu** : Adwaitha Theorem was propagated Sri. Adi Shankaracharyulu which describes only Paramatma.
3. **Aadhyatmikamu** : The study of Aatma (Immortal Soul) or knowing about Self.
4. **Agnani** : Ignorant, who belongs to Surya Dynasty.
5. **Aksharudu** : It is Immortal Soul exists in the bodies of all living beings. Verses 16 and 17 of Purushothama Prapti Yoga, Bhagavad Gita explains about Kharudu, Aksharudu and Purushothamudu.
6. **Asurulu** : Demon. The persons who opposes the services and acts of God.
7. **Atma** : It is called as Immortal Soul that gives vital energy to entire body in living beings. It is not only the source of Chaitanya Shakti (energy to live), it controls functioning of (7) seven important glands present in the body. At the time of death, it leaves the body along with Mortal Soul (Jeevatma/Jeevudu), experiences the joys and sorrows in body in accordance with Karma.
8. **Atma Shakti** : The vital power of Immortal Soul attained by realizing and identifying Immortal Soul.
9. **Bhagavantudu/ Bhagawan** : The human form of God, who born from Bhagam (Vagina) of woman with life, where as other living beings is not born from the womb.
10. **Bheejaksharamu** : Seed letters which gives specific meanings to each letters.
11. **Bhutamu** : Celestial Beings, Jeevudu is also a Bhutamu.
12. **Budhi** : Intellect, thinks according to attributes.

The Secret of Bermuda Triangle

13. **Devatalu** : Demi Gods, the human beings who committed more virtues.
14. **Devudu** : The ONE who is searched for. OMNIPOTENT, OMNIPRESENT,
15. **Dharmamu** : Divine Principles and precepts.
16. **Dwaithamu** : The Madwacharyulu propagated Dwaitha Theorem which confirms existence of both Paramatma and Jeevatma.
17. **Gnanamu** : Transcendental Knowledge, Highest Knowledge, the Knowledge of God
18. **Gnani** : Mystic, Esoteric, who acquired Divine Knowledge.
19. **Golamu** : Globe.
20. **Grahamu** : Subtle in human body.
21. **Indriyamulu** : Sensory organs.
22. **Indu** : Sign of Divine Knowledge.
23. **Jeevatma / Jeevudu** : Mortal Soul. Experiences fate (Karma).
24. **Ksharudu** : Mortal Soul. It exists in all living beings and along with Aksharudu as explained in Verses 16 and 17 of Purushothama Prapti Yoga, Bhagavad Gita
25. **Maha Bhutaulu** : Primordial Elements outside the body under control of Absolute Soul.
26. **Manassu** : Mind, which reminds the matters
27. **Mokshamu** : Liberation from life and death or Salvation.
28. **Nakshatramu** : Which is not under umbrella, invisible place, the Sign of Liberation.
29. **Pancha Bhutamulu** : Five elements, where change cannot take place. Nature, which do not attached with fate (Karma)

The Secret of Bermuda Triangle

30. **Paramatma** : Absolute Soul, which is different from Immortal Soul, God, Omnipotent, Omnipresent
31. **Paramatma Gnanamu** : Divine Knowledge.
32. **Prapancha Gnanamu** : Material Knowledge.
33. **Purushothamudu** : Paramatma, Absolute Soul, OMNIPOTENT, OMNIPRESENT, COSMIC BEING. Explained in Verse 17 of Purushothama Prapti Yoga, Bhagavad Gita.
34. **Sura** : Wine, Whisky, Drink.
35. **Surulu** : Demi Gods.
36. **Upa Bhutamulu** : Sub celestial beings.
37. **Upa Grahamulu** : Planetary beings.
38. **Vignanamulu** : Material Science.
39. **Vishistadwaithamu** : The theorem propagated by Ramanujacharyulu, which described on the lines of Adwaithamu but it substantiated.
40. **Yogamu** : Unification, Liberation, Merging with Immortal Soul.
41. **Yugamu** : Era, Epoch.

Explanations :

- ◆ **Mudu Konamulu** : Three angles which are explained in mathematics.
- ◆ **Thraithamu** : The Thraitha Theorem was originated by Sri. Acharya Prabodhananda Yogeeshwarulu based on three Souls as stated by the Bhagwan in Verses 16 and 17 of Purushothama Prapti Yoga, Bhagavad Gita
- ◆ **Brahma** : Brahma means Paramatma (the God, Absolute Soul) which is the greatest and nothing is above that. This is different from four headed Brahma referred in Puranas.

The Secret of Bermuda Triangle

- ◆ **Brahma Vidya Shastramu** : It is Divine Science pronounced by Bhagawan Sri Krishna at the time of creation of Universe. It has been manifested as Bhagavad Gita when authored by Vyasa Maharshi. The othersciences are 1). Mathematics (Ganita Shastramu) 2). Astronomical Science (Khagola Shastramu 3). Rasayana Shastramu (Chemical Science) 4.) Bhoutika Shastramu (Physical Science) 5). Jyotishya Shastramu (Astrological Science) 6). Divine Science (Brahma Vidya Shastramu)
- ◆ **Hastinapuram** : The Capital City of Indian Nation now called as Delhi.
- ◆ **Ayodhya** : It was the capital city for the kingdom of Rama.
- ◆ **Yugamulu** : There are four Yugas (time measures) as per Indian calculation. They are 1). Kali Yugam 2). Thretha Yugam 3). Dwapara Yugam and 4). Kali Yugam. Each Yugam has its own time lines.
- ◆ **Indu Maha Samudramu** : The Indian (Hindu) Ocea presently called was once upon a time called as Indu Maha Samudramu.
- ◆ **Indu Deshamu** : The meaning of Indu is sign of Knowledge. The meaning of Deshamu is country. So, Indu Deshamu denotes the Country of Knowledge. The present Hindu Nation or Hindu Deshamu was originally called as Indu Nation or Indu Deshamu.
- ◆ **Kalagnanam** : The future predictor Sri. Pothuluri Veera Brahmendra Swamy proclaimed Kalagnanam comprises of happenings in future periods. This is vastly believed by the people.

REVIEWER’S ANALYSIS

Author’s Significance

The Only Prophet for Three Religions, Profounder and Originator of Thraitha Theorem, The Emperor of Spiritual Kingdom, The Author of One Hundred above Treatises, The Sensational Author, The Source of Indu Knowledge Sri. Sri. Sri. Acharya Prabodhananda Yogeeshwarulu, has been icon in Spiritual domain kept aside the theorems already in vogue, propagated the theory of three Souls viz. Jeevatma (Mortal Soul), Aatma (Immortal Soul) and Paramatma (Absolute Soul) is significant and phenomenal in the entire Universe. The Secret of Bermuda Triangle, under review is one among hundred treatises authored by the towering path maker. The Swamiji has elaborately explained about the Secrets of Bermuda Triangle, Flying Saucers and Aliens, which no one has so far narrated. This treatise cannot be viewed in a Materialistic manner rather Divine Power has been asserted in Spiritual angle. His writings are unique and indomitable in the echelons of Spiritual domain. I am concluding about pinnacle of mettle in respect of Sri. Sri. Sri. Acharya Prabodhananda Yogeeshwarulu, with this few lines like “how a mountain resembles a little in the mirror”.

Inner Consciousness of Translator :

Inspired by the divine blessings of Swamiji, the translator, Sri. S. Chandra Sekhar, entered into Thraitha Theorem fold in the year 2015 and swallowed the nectar of Spiritual Knowledge. He retired as Chief Manager after 32 years of Banking Service from A. P. GrameenaVikas Bank, Warangal.

After intensely grasping Swamiji’s unique Theorem and literature available in mother tongue ranging above 100 treatises, he aimed to bring those publications in English language for wide publicity to readers throughout the world. This instigated to acquire Divine blessings of Swamiji and with the accord of Divine grace; he surrendered to the chosen Divine cause and translated “Secret of Bermuda Triangle” being his maiden work.

Benedictory Review on Translation :

The Translation can be defined as endless internal churning of Consciousness. The elegance of ceremonious translation art cannot

The Secret of Bermuda Triangle

be handled effectively unless the translator not only understands his inner Consciousness but should deeply connect with Universal Super Consciousness of author of original treatise. Unless critically analyzed the inner Consciousness of Profounder of Thraitha Teorem, the subliminal transcendental theme of theory, one cannot take up this herculean task. That means, you should pervade the spirit of the text, even then, you should not be identified, there you are not a translator but only an instrument in the hands of Supreme Consciousness. After thorough review of few of his translations, with the experience and knowledge I possess in the field of translation and related aspects, I can undoubtedly place on record and present this review as he thrived hard to greater extent to handle the art of translation by immersing in Swamiji's script in an amazing manner.

After keenly observing and analyzing the translated English text from Swamiji's original Telugu text, I cannot refrain from expressing the fact that he imbibed the ultimate inclination of "Naaham Karta" i.e. "I am not the Owner" and performed the penance of translation in line with the simplicity of language and fundamental inclinations of Original Author. Having understood the sentiments of readers, he presented the elegance of Knowledge of Soul with simple, legible and transparent approach.

With bottom of my heart, I wish him to undertake many more translation works of Swamiji's treatises in future and take the message of Divine Knowledge to the trans-continental readers with the Divine blessings of Sri. Sri. Sri. Acharya Prabodhananda Yogeeshwarulu.

With Best Wishes,

Dr. Y. Shiva Rama Prashad, Hyderabad.

THE SECRET OF BERMUDA TRIANGLE

(Thraithakara Rahasyam – Thraithakara Bermuda)

FORE WORD

The small book called “Triangular Secret” is mainly written about a place in the ocean called “Bermuda Triangle”. The Bermuda Island exists near ocean, so it was called as “Bermuda Triangle” by everybody, but as “Devil Triangle” by some people with an opinion that there exists a big devil. About 20 years ago, a special article appeared in a news paper wherein it was reported that in the year 1947 the clue about six American war aircrafts was not found in the Atlantic Ocean and so far their whereabouts also not traced and many others were disappeared previously in the triangular ocean near America. Then it was a strange and after some time it was reported about Bermuda triangle at another place that ships and aircrafts went to investigate them also disappeared and their address was not traced. At that time, I thought that there could be some meaning if ships traveled in the sea disappeared but there is no meaning if aircrafts fly in the air also disappeared. The moment it is observed that aircrafts also disappeared, it was concluded as a mystery not known to mankind operates at that place.

The English word ‘Triangle’ mostly attracted and made me to think about it, which is called as “Mudu Konamulu” (Thrikona, Three Angles) in Telugu. The reason is entire universe and Divine wisdom in it is based on these three

The Secret of Bermuda Triangle

numbers. At this juncture any one can ask as what is this new word 'Three' and no one mentioned about it previously. It was clarified as the Thraitha Theorem in Spiritual knowledge propagated by us based on the word 'three' only. Earlier, Advaita Theorem was propagated by Adi Shankaracharyulu, Vishistadvaita was preached by Ramanujacharyulu and Dvaita was preached by Madhwacharyulu, now it is our turn to reveal Thraitham, by setting them aside as there was no base. Those theorems did not show correct path in Spiritual education, resembles baseless buildings and prone to collapse at any moment. The Thraitham was revealed as per Verses 16, 17 of Purushothama Prapthi Yogam of Bhagavad Gita proclaimed by the God himself. The three angles of Bermuda were very close to Thraitham and if procedure of triangle was not understood by any one, I thought it was linked to the Thraitham. The Thraitham explained through the Bhagavad Gita was not understood; likewise the triangle explained by researchers was also not understood. It was construed that the secret of Triangle remained as prohibited area in the ocean, can be revealed through Thraitham only.

If anyone is interested to know about triangle, it can be understood by those who already knew something about Thraitham. The secret about Bermuda Triangle which remained as mystery so far was understood by us when concentrated according to Thraitha Theorem only. Accordingly, every aspect was understood and for benefit of others, we wanted to write in the form of treatise. The result

The Secret of Bermuda Triangle

of effort is only the treatise called “The Secret of Bermuda Triangle”. The whole information narrated has been researched through last and the biggest science among six sciences, called Brahma Vidhya Sashtam is science according to theory in Spiritual education, nothing is false and without scientific base. This treatise gives entire picture of Bermuda Triangle and the reader also gets curiosity to know about their Immortal Soul (Atma) and have an opportunity to convert himself as a person of Spirituality.

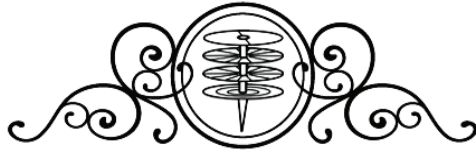

It is quite natural to get some doubts for some people on this treatise, who are of the opinion that, how can one explain matters not understood by American scientists? How it can be construed as true, when the words are expressed by sitting here itself? There is nothing wrong to get such doubts. But, one should not ignore blindly the matters explained in this treatise, think and decide yourself whether it is true or false. The treatise not only expresses about Triangle but also inter related issues such as Earth Quakes, Tsunamis and lava (volcanic rock) and so many such catastrophes. The involvement of clouds existed behind disappearance of boats and aircrafts near triangle and the power of clouds was infinite. In the year 1940, the clouds caught a small air craft in triangle area, again released that aircraft to give an indication to outsiders that it was executed by them. The pilot narrated himself entire episode that the small aircraft looks like a helicopter was flying at 104 kilometer per hour speed, bailed out of clouds in which it was caught and reached 180

The Secret of Bermuda Triangle

kilometers distance only within 3 minutes that speed comes to 3600 KM per hour. Since it was not possible for his air craft to fly at so high speed, how it reached was a miracle, the navigation also failed at that time, the engine was failed and petrol was not at all consumed. After his explanation, when analyzed it gave an indication that clouds left the air craft not only to exhibit their identity and power, but also wanted to prove that whatever caught by them can be taken to any distance within a few seconds. In these circumstances, when power in the triangle was not understood by anyone, no material evidence traced for the activities, some details were explained in this treatise because of subtle Spiritual knowledge and also knowledge of Immortal Soul (Atma). It can be firmly believed that this treatise reveals so many secrets and there will be an opportunity for future generations to know about Immortal Soul (Atma). The fore word has been written to introduce this treatise to you with an intention that you will proceed further in the Spiritual world and will be a great help in all fronts.

By

Acharya Prabodhananda Yogeeswarulu

THE SECRET OF BERMUDA TRIANGLE

(Thraithakara Rahasyam – Thraitakara Bermuda)

The meaning of 'Indu' is Moon, king and sign of Knowledge. Therefore, Lord Shiva, consort of Parvati wears crescent of Moon on his head, exhibiting knowledge in his head or giving indication that he is knowledgeable. Thus, in general and also as per Spirituality the meaning of word Indu is taken as knowledge. In verse 25 of Akshra Parabrahma Yogam of Bhagavad Gita, Krishna stated as “Chaandramasam Jyothi” aiming at Divine Knowledge. The Knowledge can be manifested in two ways on the Earth, one is Divine Knowledge and another is Material Knowledge and the science exists in both. Knowledge is known to intellect and science is known to senses also through senses. That means the science can be seen and hear through eyes and ears respectively. So, knowledge with regard to science can be absorbed through intellect. For example, the procedure learned to cook an item from someone is called knowledge. When the knowledge about cooking grasped by intellect and cooked as per its advice is called science. According to this, when the knowledge known has been practiced, it is called science, which can be experienced by anybody. The item cooked by a cook with his knowledge can be experienced by even hundred persons after eating. Though knowledge of cooking may not be known to everyone who eats, so many people can experience with one person's knowledge. For example, take cell phone which is visible to all, initially one person invented, thereafter they have been manufactured with that knowledge. Some other

The Secret of Bermuda Triangle

people also manufactured with different individual company names, after getting knowledge of cell phone from the person who invented it. Gradually ten members (ten companies) knew about it, there are millions of people using and enjoying with them. It should be remembered that, the knowledge of cell phone is not known to all people using it. The person initially invented reveals outside, it becomes knowledge. It can be called as science only when the item manufactured with that knowledge comes in to experience. Nowadays, entire country has scientifically developed due to the knowledge of a few people. It is fact that so many people are enjoying comforts with the help of science.

After observing above all, it is evident that knowledge is different and science is different. The English word 'Science' in modern era was called as 'vignanam' in ancient times. The knowledge which is base for science can be called in English as either Super Science or Super Knowledge. As stated earlier as the knowledge can be known of two types, Material Knowledge can be called as Super Knowledge and Divine Knowledge can be called as Super Science separately. The Divine Knowledge was called as Super Science by some people, so, we will also follow the suit. Now, before explaining in detail about Super Knowledge, we will discuss about one matter. The diamonds (Vajras) are found at a place called 'Karuru', so Karuru area is called as "Vajrakaruru". Till now so many people got so many diamonds, of them some are small, some are big and some are of medium type likewise so many varieties were found. According to their size and shape, the cost of diamonds

The Secret of Bermuda Triangle

was ranging from Rupees One thousand to Rupees One Crore worth. All these diamonds were not found at a time and some hundreds of years might have been taken. Without stopping here, diamonds can also be found in future. In hundreds of years time, so many people got so many diamonds, in different sizes and weights means, it is to be accepted by all that those diamonds existed in that area since long. The world famous diamond 'Kohinoor' was also found in Nallamala forest range of Kurnool district. Earlier the name Kohinoor was not there to that diamond, as it was found by a Muslim person called 'Kohinoor', as a mark of identity it was named after him as Kohinoor diamond.

It can be construed that how different types of diamonds existed on the earth, the knowledge related to so many types of scientific instruments and machinery also existed on the earth from ancient times. Similarly like diamonds, the knowledge existed from earlier times was known by any one at any time. The diamond of one size was found by one who searched earlier similarly the knowledge related to a particular subject was known to a person researched first. The diamond so found can be seen by any number of persons likewise the knowledge invented by one person can be revealed and useful to any number of persons. The matter to be observed here is, if the diamond was seen and takes it by a person he says that the diamond was found by him. But, when a scientist finds any secret or method not known earlier and it works, he claims it as either he achieved

The Secret of Bermuda Triangle

or invented it. He performs and shows it as per the procedure he knows and proves what he invented. When Radio was not existed, in the year 1866 AD Marcony invented it. Whether diamond was found or invented either an instrument, machinery or one Theory it can be concluded that they were existed previously on the earth. The one which is now known to us already exists on the earth without our notice. But nothing can be found which was not existed earlier. Till now whatever has been invented such as, Computers, Aircrafts, Sky labs, Atom bombs, Cell phones, Televisions etc., the knowledge related to all of them existed from yesteryears. The knowledge pertaining to various articles used by human beings for enjoying their comforts was created by the God at the time of creation of universe, whose knowledge is not found so far. These words won't be accepted by Atheists for which there is no scientific reason to do so. There is a scientific base to say that they exist from the beginning and a creator also available for them. The matter such as what scientific base they do not have and how our words are scientific will be explained at later stage. According to a cardinal principle, when the existence of one matter has been proved scientifically, at the same time it is also to be proved scientifically that such matter does not exist. Otherwise, it is not scientific to say blindly as the matter is not existed, about which we do not know.

As stated earlier about types and nature of the Knowledge, the Super knowledge is base for science; neither knowledge nor science exists without relation to it. Further, it

The Secret of Bermuda Triangle

should be noted that Material Knowledge is based on five sciences and Divine Knowledge is based on one Science i.e. Brahma Vidya Sasthram (Super Science) which is excellent and holier than other five sciences related to worldly matters. The material knowledge so far known has been taught by teachers from primary school to university and can be viewed in the form of science. Accordingly, the science exists in material knowledge has come to everybody experience. The Divine Knowledge will not be visible when heard from a preacher, like material knowledge visible to all as science. If observed perfectly the material knowledge, besides the person who manufactured computer, those who have not manufactured also enjoyed the benefits. Unlike this, in Divine Knowledge whoever knew and behaves according to that only enjoys the bliss derived from it. Further, the science of material knowledge enjoyed by all even it is found by one person, contrary to that the science of Divine Knowledge is enjoyed by only the person who finds it. The entire Divine Knowledge related to the God was revealed by himself in advance and Worldly Knowledge was found by people. The Worldly Knowledge was not revealed by anybody in advance rather invented by people as time passes and found from that time only. This is main difference between Worldly Knowledge and Divine Knowledge. Incidentally, the wonder in Divine Knowledge is, if it is not known perfectly or main essence is not understood, then its' science cannot be known. The Divine Science comes to experience provided the Divine Knowledge is

The Secret of Bermuda Triangle

understood as per the essence revealed by the God and that too should know about it. There exists some other method in which the science related to Divine Knowledge shows some proof in advance about existence of the God. The worldly knowledge will not have any relation to Divine Knowledge which was revealed in advance. None of the theories among worldly knowledge can explain Divine science.

It can be construed that any matter is known and experienced by everyone and not concerned to worldly knowledge, definitely pertains to Divine Knowledge, can be found through science of Divine Knowledge. Also the Divine science can be known or experienced through Divine Knowledge already revealed. According to this, the science which is originated through Divine Knowledge is understood in detail through the Divine Knowledge. The worldly knowledge did not exist at the beginning and its science ventilated only when it was surfaced. The worldly knowledge is visible and can be easily understood by everyone. Correspondingly, the worldly science is visible and can be easily known to all. Interestingly, the God as well as Divine Knowledge and science originated from it also not visible. The science originated from Divine Knowledge is only known to the person who knows it but not even to his neighbor. Therefore, the Divine science is not expanded like worldly science. This issue is related to all human beings not only exist in our country but also in foreign countries. But, nowadays the people of any country do not possess interest or diligence on Divine Knowledge. Presently

The Secret of Bermuda Triangle

the usage of machinery is increased in all countries and material knowledge too. There is no curiosity at all about the Divine Knowledge. The ignorance and ego have been developed in mankind by manufacturing dangerous deadly weapons, presume that they are supreme to everything and the God is only an imagination, only under knowledge and ignorant people with false belief feels existence of the God. There are 80% of people in every country who say that the God is there but of them 95% are unaware of Divine Knowledge. There are many people who are afraid of if any loss or evil occurs to them in case they say that the God does not exist.

INDU NATION

(The Indian Nation)

There were many people with Divine Knowledge in Indian Nation (Indu Nation) in olden days when compared to present days. As civilization grew, mankind learned worldly education, gratitude on Divine Knowledge decreased in higher percentage and confidence on worldly knowledge increased. The situation prevailing in our country is first education, after that employment, thereafter earning and no concentration on other matters. Few people have devotion, which is only on demi-gods but not on the God. Even that is also filled with selfishness but not a selfless devotion. The devotion has been utilized for selfish political gains, thinking that theirs is true devotional sentiment; groups in the name of saviors of Religion

The Secret of Bermuda Triangle

and precepts (Dharmas) have been formed. The state of Divine Knowledge in Indian Nation of olden days has been slipped into backwardness. Not the history of Krit yugam, if looked at the history of Treta yugam, Indian Nation of those days was on top with regard to Spiritual Education and Divine Knowledge among all world nations and was highly reputed for Divine Knowledge and power.

The recently bifurcated countries such as Afghanistan, Pakistan, Bangladesh and also Sri Lanka were earlier integral part of Indian Nation and this Mother land. In Treta Yugam Lanka and Indian Nation were together only. The ocean presently existed in between these countries was not remained and tens of kilometers distance of ocean was not existed. Because of heavy cyclones, water lakes or small tanks of one or two furlong dimension occurred and water was stagnated between two countries. At some places water was up to a distance of less than half a kilometer, it was flowing from east to west side in to ocean. There was no water at all at some other places and land linked two nations. Though Lanka and Indian Nation existed on same domain of land, the Lanka was an independent Kingdom ruled by separate Kings, like wise in the north also Pakistan, Afghanistan and Bangladesh were ruled by separate kings in northern and southern areas. The Delhi which was known as Hastinapuram in Thretha Yugam period, to north area was ruled by different Kings and southern area with Ayodhya as its capital was ruled

The Secret of Bermuda Triangle

by Dasharatha for some time and later on Rama and others from his dynasty. The Lanka was ruled by the kings of India during Krita Yugam and for some period in Tretha yugam also was ruled separately without any relation with Indian Nation during the period of Rama as well as before and after him.

The Indian Nation was part of Asian continent but it was specially called as a continent since the Himalayas exists in the north like the highest big walls which separates from Asian continent, also surrounded by oceans, it was named as Bharat continent by some people. The Indian Nation forms part of Indian continent but appears as separate continent with Himalayas on the top and Sri Lanka at the bottom invisibly looks like a country with lot of power. The Asian continent is the biggest among all continents in the world in which Indian Nation appears as special continent physically, but invisibly it has specialty in Spiritual Power and remained as birth place for Spiritual Education and Divine Power. The God descended and went away in to Indian Nation for five times to reveal his principles; it has a specialty as He again took birth for the sixth time. He preached all Divine principles especially in his sixth birth due to that there is tremendous specialty to India Nation. Among 194 countries in the world today, apparently there is a reason for the Divine Omnipotent of this universe to take birth for six times as Bhagawan (Human form of God) in India only.

INDU MAHA SAMUDRAMU

(The Indian Ocean)

The creator, Absolute Soul (Paramatma) alone created this entire universe, called as God, most powerful and has no form and bounded by precepts (Divine Dharmas). Nobody knows about the types of God and how the God is. As an indication about incarnation of the greatest personality, the Divine Power (power of Immortal Soul) occupies its position on surface of the earth. In entire surface of the Globe, there exists about 73 percent of water and 27 percent of land. Lanka located at lower part of India and surrounded by water and India also has water on three sides. The water exists between India and Lanka gives a small specific continent look to Lanka in Indian continent. Owing to Ocean, the Indian land area gives a peculiar look in Asian continent and Lanka remains just besides it in Indian continent.

The ocean existed uninterrupted on the entire surface of Globe, the earth is fragmented into continents and separate names adopted to them. The ocean was not fragmented like earth, but it was also named according to their location. The ocean occupied at lower part of Indian continent and four sides of Lanka was named as "Indu Maha Samudramu (Indian Ocean)". In Krita Yugam itself the area located underneath Indian Nation, consists 70 percent of water and 30 percent of land area was named as 'Indian Ocean'. Since Indian Ocean was existed in the south lower side of Indian Nation (Bharat

The Secret of Bermuda Triangle

Nation) was named as Indu Nation (Indian Nation). In later times, the name Indu Nation was replaced by Hindu Nation (Hindu Nation). The God asserted that precepts (Dharmas) will be converted as non-precepts (Adharmas) in the course of time; likewise Indian Nation (Bharata Nation) was also attached with a meaningless name by detaching a meaningful name it had earlier. This important matter to be thought is, it appears foolishness to claim that our country was named as Hindu Nation, named after unimportant river Sindhu which existed at north side, losing a great name which acquired due to existence of Indian Ocean at southern side. This statement gives scope for so many questions. In the event if it was named after river Sindhu, it should have been named as Sindhu Nation instead of calling as Hindu Nation. Over a period of passage centuries if unknown people called it as Hindu Nation, it should have been corrected and convinced so as to call it as Sindhu Nation, since it was named after Sindhu River.

There might be some reason to say that according to river Sindhu only it was called as Hindu Nation. A country with a large size, was named after a simple river which has no greatness, instead it could be named as Ganga Nation, after river Ganga flows through country and famous for its sanctity. It should have been called as Brahmaputra Nation after river Brahmaputra, since it was renowned as the biggest river in Bharat Nation. It is appropriate that river Sindhu flows in Pakistan and a particular location is named as Sindhu state (Sindhu rashtramu). It is quite reasonable if a state was named

The Secret of Bermuda Triangle

after a river which flows in Pakistan, there is no meaning at all for taking name of river Sindhu by Indians. Any one question those Hindus who speak ridiculous, formed some societies and say that they are safeguarding Hindu religion, as Do you know the old History of Bharat Nation (India)? Do you know the history that Bharat Nation was first among all nations in Divine Power and Education? Do you know even any one of precepts revealed by the God who descended as Bhagawan only to Bharat Nation? Do you know what meaning the word 'Indu' contain? Whoever do not know Divine Knowledge should not claim themselves as Indus. Those who do not have any relation with Divine Knowledge are not at all Indus, nowadays those who do not know anything about Divine Knowledge or principles are not calling themselves as Indus but described with a different name as Hindus.

The word 'Indu' is another name for Divine Knowledge. The Indian Nation is on the top with regard to Divine Knowledge among countries of world. Therefore, Bharat Nation was named as “Indu Nation” and its meaning is Divine Country (Gnanula Nation). The main reason to call Bharat Nation as Indu Nation was existence of large number of people with Divine Knowledge. When observed, if some ignorant people with Sindhu civilization called as Hindus, accordingly people of Pakistan who are along with coastal area of river Sindhu also to be called as Hindus only, it is not so. Therefore, leave aside the word Hindu which has no meaning and History,

the Bharat Nation can be called as Indu Nation according to History and with meaningful word 'Indu'.

GNANA SAMUDRAM

(Knowledge Ocean)

The Indian Ocean is main reason to proudly call Bharat Nation as Indu Nation (Indu Nation). In this endless infinite universe, the God without shape but only with wisdom is omnipresent in each and every particle. Though his power prevails everywhere, some of its power is concentrated in large quantity at a particular place on the Globe. Not only on the surface of Globe, the power is concentrated in large quantity on so many other globes, planets, stars and some other places. This method is also existed on the surface of Globe and it is extensive in size. The power is extended in lakhs of square kilometers width. During Thretha Yugam, the power was located in the lower area of India that means totally towards south side in the ocean nearly surrounding Sri Lanka. The God consists of precepts (Dharmamulu) and precepts consist of Knowledge. If the Knowledge is known then the precepts also can be known. If the precepts are known finally the God also can be known. Therefore the elders stated that the Divine Power as the power of Knowledge. Since the power of Knowledge existed near Lanka, at lower side of Bharat Nation in the Ocean, that Ocean was named as Indian Ocean (Indu Maha Samudram). In Krita yugam the ascetics (Yogulu) with Divine Knowledge named it as Knowledge Ocean. The

The Secret of Bermuda Triangle

word Knowledge (Gnanam) is equal to 'Indu', ascetics and intellects of that period called the Ocean of Knowledge as 'Indu Ocean' (Indian Ocean). Since the power of knowledge is the greatest, Indu Ocean was added with the word great (Maha) and called it as Indian Ocean (Indu Maha Samudram) also by ascetics of Krita Yugam, to be understood that matter by everybody. Since that time 'Indu Ocean not only remained as Indian Ocean, rejuvenated Bharat Nation and Lanka with its power and extended some power to these countries. Since then due to Indian Ocean the Divine Knowledge was blazed in Lanka as well as Bharat Nation. From then onwards, the Lanka and Bharat Nation were considered forefront in Divine Power and Spiritual arena among all other countries on the surface of Globe. Now, it can be questioned by some people as, as mentioned earlier, since some Divine Power existed in the southern part of Ocean, that ocean became Indian Ocean, because of that ocean only Bharat Nation was named as Indu Nation. Whereas now it is mentioned that Lanka also became country with Divine Power along with Bharat Nation. In the circumstances, when Bharat Nation became Indu Nation after acquiring Divine Power, what identity came to Lanka with Divine Power? For that the answer can be seen as under.

SRI LANKA

The Lanka got double benefit than Bharat Nation from Indian Ocean which is only the nearest country to that Ocean. So many renowned intellectuals were born in Bharata Nation

The Secret of Bermuda Triangle

and it attained identity as birth place of Divine Knowledge. As Bharata Nation was an abode for intellectuals, it was called as Indu Nation. Many proofs are available to confirm that the Lanka benefited more than Bharata Nation. According to Spirituality, the Liberation (Moksham) is the biggest after Knowledge (Gnanam) in entire Universe. The Knowledge reveals only matters relating to the God, where as the Liberation it itself amalgamates in to the God. The ascetic (Yogi) who tries to amalgamate himself into the God is greater than the intellect who knows about Divine Knowledge, as stated by the Bhagawan (Human form of the God) in verse 46 of “Atma Samyama Yogam” of Bhagavad Gita.

*“Thapasvibhyodhiko yogi gnanibhyopi matodhikaha,
Karmbhyashchadhiko yogi tasmadyogi bhavarjuna!”*

In the above verse it was revealed by the Bhagawan himself to Arjuna to become ascetic (Yogi), because an ascetic is greater than hermits, Intellectuals and fatalists (Karma Yogulu). After getting knowledge the Bharat Nation was called as Indu Nation, whereas the Lanka got liberation which is greater than knowledge. There were incidents that many intellectuals were taken birth in Bharat Nation but who took birth in Lanka got liberation. As per Jyotishya Sashtam (Astrology), Moon is the King of knowledge and can be shown as sign of knowledge. The lord Shiva one among Trinity (Thrimurthulu) decorated his head with crescent of Moon and exhibited to indicate him as an intellect. The Induvu is another name for Moon

The Secret of Bermuda Triangle

(Chandrudu). Way back in Krita yugam elders named “Indu” to Bharat Nation to recon as a symbol of knowledge. The vocable “Indu” was called as symbol of knowledge, the vocable “Sri” was called as symbol of Liberation. Accordingly, the word “Sri” was prefixed to Lanka which was very close to Indian Ocean and called it as Sri Lanka. Our country which existed in second nearest place to Indian Ocean got name as “Indu Nation” (Indian Nation), whereas the Lanka which located in the first nearest place was named as “Sri Lanka”.

In the entire world only one country i.e. Sri Lanka possesses the letter Sri as prefix. The Indian Nation is only one country in entire world which sounds as symbol of knowledge. While neighboring country has retained its name as Sri Lanka till date, the Bharat Nation caught by ignorance and with the influence of Maya (Illusion) the Indu Nation is now called as Hindu Nation. The people who claim themselves as guardians of Hindu principles, saviors of Vishwa Hindu principles and wanted to develop the Religion, have become totally ignorant, caught by the illusion called Religion, without knowing History and not knowing that Indu precepts means Divine precepts. When it was stated that the people are only Indus but not Hindus, in between the word Indu was changed as Hindu, without even respecting, they pointed out that only by mistake it was mentioned as Indus and warned to correct it as Hindus. They have also been speaking at Guntakallu, Mahanandi and

The Secret of Bermuda Triangle

some other places treating those who stated that as they belong to other Religion.

It is the time to discuss about Sri Lanka, wherein Ravana Brahma was born in Threta Yugam. As per history available with us in the form of Ramayana, the people who changed word Indu to Hindu have described him with disrespect and worst description, while he was renowned as a great intellect (Gnani), intellectual of three periods (TRIKALA, past, present and future), an ascetic and the Brahma (Great). When observed, the Ravana Brahma born with an eligibility to get Liberation in Sri Lanka which itself remains as symbol of Liberation, was merely called him as an ignorant (Agnani) in this country. With this any one may certainly get a doubt, is it the same country which once up on a time was renowned as Indu Nation? The ignorance increased in magnitude in present Bharat Nation result of which this country has been changed as Hindu Nation. However, befitting to name given by elders of those days, knowledge and Divine secrets not known by anyone have been revealed at some or other places in Bharat Nation proved for itself as Indu Nation (Gnana Nation) forever. In order to prove Bharat Nation as true Indian Nation (Indu Nation) in front of countries of world, the treatise called Secret of Bermuda Triangle was written which was impossible to find out by anyone in the entire world.

When viewed the main issue, in the name Sri Lanka 'Sri' is sign for liberation came as an honor and added to Lanka and

The Secret of Bermuda Triangle

became Sri Lanka. Similarly, the word Indu is symbol of knowledge came to Bharat Nation and became Indian Nation. Sri Lanka is nearer to Indian Ocean than Indian Nation, it has a special letter Sri in Sri Lanka also contains (Beejakshram) a mystical or root cause letter “Lam” in that word. The letter followed by zero to first letter is known as mystical letter (Beejaksharam), in which a word Beejam (seed) existed. The meaning of Beejam i.e. seed is something is being born from that. As per this, from seed letter “Lam”, it denotes as seed or birth of power. As there are two types of powers in this universe, the elders prescribed one seed letter as “Hreem” to worldly power and another seed letter “Lam” to Divine Power. The letters “Om” and “Sri” indicates Absolute Soul. Till now no country contains seed letters such as “Om” karam and “Sri” karam in its name, but for Sri Lanka. The Bharat Nation which is very near also does not have sound of such seed letter. Therefore, the Sri Lanka is the greatest in manifold than Indian Nation with regard to its name, meaning and power.

In the word Sri Lanka we understood meaning of letters “Sri” and “Lam” and last letter “ka” does not contain any meaning, as it is an ending letter used for that limited purpose. For example, in the word “Shapamu”, two letters Shapa contains meaning, ending letter 'mu' does not contain any meaning. Finally, in Sri Lanka only letters “Sri” and “Lam” contains meaning.

RAVANA BRAHMA

The Ravana Brahma was born in Tretha Yugam in Sri Lanka which was said to be greater than Indian Nation as per it's meaning in all aspects. In those days, he was praised by intellectuals as Ravana Brahma befitted to his birth country. While some people have written awkwardly in the History, he was the greatest forever in the eyes of intellectuals. The 'Ravana' was his name and 'Brahma' was his title. In Spiritual terms, the word 'Brahma' contains meaning as the biggest or greatest. Except the God, no one is greatest in this universe and word Brahma replicates the God as well. The person who was called with the greatest word Brahma comprises meaning Divinity, the God or Eashwara was viewed as the worst person to our historians.

The word Ravana can be divided as Ra + Vana in two letters. Accordingly, in the treatise “Mana Pandugalu” the word Rama was divided as Ra + Ma, in two letters and their meanings also were explained. It was also narrated that the word Rama possesses sanctity and the greatest word. In bifurcated letters Ra and Vana, meaning of Vana is forest, can be described as collection of trees. As already explained “Ra” indicates destruction, “Ram” is the seed letter for destruction. If the sound Ma is deleted from “Ram” only “Ra” is left behind and it also gives meaning of word “Ram”. Since both the letters “Ra” and “Ram” gives same meaning as destruction, name Ravana expresses significance as a person destructs forest. The name Ravana indicates a person destructs attributes

The Secret of Bermuda Triangle

(Gunamulu) in the form of trees in forest, which is an illusion (Maya). In those days, since he was the eldest among all to destruct total forest which is illusion, was named as Ravana Brahma on that day. He was a great Spiritualist and also addressed as intellect of all three periods (TRIKALA, past, present and future). In Threta yugam, he was only the person to know that Indian Ocean comprises of Divine Power. He had been bathing in the ocean frequently and knew that whoever takes bath in Indian Ocean they get Divine Power into their head. In those days much power was existed in Indian Ocean, whereas now that power does not exist there and will be explained about it later.

The Ravana Brahma attained Liberation (Moksham) signifying to meaning in the name Sri Lanka. The intellects were born in Indian Nation to bring significance to its name but Ravana Brahma became ascetic (Yogi) who is above intellects had finally attained liberation and it is undisclosed fact presently. He was manifested as an ignorant person and most unfortunate for not recognizing his nobility. Even after Bharat Nation became Indu Nation (Country of knowledge), with the influence of illusion meaningful Indians (Induvulu) became meaningless Hindus, likewise the greatest Ravana Brahma was counted as a least personality. The Bhagawan asserted in Bhagavad Gita that as time passes the precepts (Dharmas) will be degraded as non-precepts (Adharmas), the Indus possessed knowledge in olden days will be converted as Hindus who lack knowledge and wisdom. The God stated that the moment precepts will be changed as non-precepts (Adharmas), again

The Secret of Bermuda Triangle

He incarnates and reinstates the precepts. According to this, the God may descend as Bhagwan at anytime to convert people of Bharat Nation as Indus. Amidst ignorance, the Aryans with regional differences such as Aryans and Dravidians portrayed and have written worst about Ravana Brahma which the people did not observe what is good or bad, did not found truth and understood him as Bad. He was viewed indifferent in several aspects thereby became bad in the eyes of everybody. One example can be elucidated to confirm how he was badly understood.

In ancient times meaning of sura was known to a few people as an intoxicated wine drunk by demi Gods, same is called as Brandi and Whiskey today. The people who drunk sura, were called as surulu (demi Gods). The meaning of surulu is known to majority of people as demi Gods. If the people who drink are called as Surulu (demi Gods), who do not drink sura may be called as Asurulu (a demon). Who declared the Ravana Brahma as Asurudu, called demi Gods as Surulu. According to this, it should be analyzed whether the Ravana Brahma who was Asura was the Greatest or Surulu were great. Further, one more related matter can be analyzed now. One person saw a man drinking liquor and commented that 'Hay, no donkey drinks like this'. Then the person who was drinking replied that "You told correctly, since I am a man I am drinking and as you are donkey so you do not drink". The first person told with an intention that the drunkard is worst than donkey, the drunkard felt that those who do not drink they are equal to donkeys. Similarly, the Ravana Brahma was called as Asura

The Secret of Bermuda Triangle

instead of taking meaning for asura as the person who do not drink; he was called as a demon despite he was an ascetic and intellect of three periods (TRIKALA, past, present and future). With this it can be construed that he was not understood correctly by people.

It was fact that Ravana Brahma had abducted Sita from the forest. Basing on that single incident, all the writers portrayed him as a wicked and ignorant person whereas he had taken away Sita not with any bad intention. For about ten months period Sita was under protection of Ravana, throughout she was looked after as his own daughter by arranging ten maid servants to serve her. Once in a week he visited Sita along with his wife, and enquired about any short falls in her arrangements. He also explained reasons for bringing her in that manner, admitted that his death would be in the hands of Rama in Lanka, the same matter was already informed to his wife Mandodari Devi. Further, he narrated about mentality of Rama which Sita will come to know in future. Ravana being an intellect of three periods (TRIKALA, past, present and future) also informed her in advance about time of his death. She never had any bad notion, identified him as a great intellect, an ascetic and never spoke badly about him.

After a thorough study, it can be noted that the birth of Ravana Brahma was a secret and so far not known to anybody. It may be unbelievable that at least to some people the meaning of word secret is not known. In the event the birth of

The Secret of Bermuda Triangle

Ravana is secret and not known to at least some people, then only there will be a meaning and significance to the word secret. If explained about that secret in detail only some people will understand but not all. As explained earlier, there exists some Divine Power in the ocean surrounding Sri Lanka. That Divine Power intended to show some model on the earth such as, what is Divine Knowledge? What is Unification (Yogam)? Finally what is Liberation (Moksham)? The Divine Power wanted to set evidence on the earth, by giving birth to a person who consists of Knowledge (Gnanam), Unification (Yogam) and Liberation (Moksham), to give visual standard to everyone by seeing it, it took itself birth as Ravana Brahma, a human being in nearby Lanka. The Divine Power took birth as a person was renowned as Ravana and Ravana Brahma. The Divine Power also called as Brahma shown Knowledge and Unification through Ravana in real life. Finally, he died as per the principles of Divine Science (Brahma Vidhya) and attained Liberation, which indicates that any human being can attain Liberation as per the same principles. This exhibited greatness and glory of Ravana Brahma. The persons who manifested such a great personality as vile and wicked person are totally ignorant.

The Ravana Brahma was called as a person with ten heads or ten throats (Dasha kanthudu). In this aspect, the word Dasha kanthudu is false, where as the word person with ten heads is fact according to only with some meaning, but when viewed physically it is false. He was the greatest intellect and

The Secret of Bermuda Triangle

equal to sum of ten such great intellectuals, thereby it was stated that way. He did not have physically ten heads but subtly he possessed the knowledge amounting to ten heads. Since he did not have heads it was not possible to have throats hence the word ten throats is totally false. He might have ten heads subtly but he did not have ten throats either physically or subtly.

POWER ON THE OCEAN

It was explained that more Divine Power was concentrated in Indian Ocean, due to that Bharat Nation was named as Indian Nation (Indu Nation) and country located underneath it was named as Sri Lanka. Now anybody can raise questions in this regard. The oceanographers, astronomers or any scientists have never found and declared that there exists some power in Indian Ocean! So far when nobody found and disclosed how it is possible and any base is available? It is true that the Divine Power existed but there is no base to prove or show Divine Power as it does not exist in physical form cannot be shown physically. The Divine Power exists in subtle form and can be absorbed by intellect and depends on individual intellectual absorption power. It was mentioned earlier that Divine Power existed in Indian Ocean in olden days and the same power does not exist at present. Now there is possibility to ask some other question by some body. When we questioned as, “how you are able to tell that the power exists there”, you answered as, it existed in olden days but not now.

The Secret of Bermuda Triangle

Again it can be questioned this way. You might have answered with an intention that you will be caught? For that our answer is! I said that the power does not exist there now, but I did not mention that it did not exist anywhere. The power which existed in Indian Ocean in those days now changed its location and exists at some other place. To understand clearly, we are explaining elaborately about the power exists in the ocean, observe this.

The entire human body is related to nature and created by elements (Five forces) in nature such as, the Sky, the Air, the Fire, the Water and the Earth, called as five primordial elements. The power was stationed and existed in the mind of human body originated from five primordial elements and it controls and moves the nature consists of five primordial elements. The power in human body is called as Divine Power or power of Immortal Soul (Atma Shakti). The Immortal Soul or power of Immortal Soul exists in the body is not visible to anyone. The power of Immortal Soul has pervaded in the entire body and performing all activities. The body can only be alive if Immortal Soul is existed and body does not work in absence of it. The Immortal Soul exists in a body and makes it to perform and the Divine Power (power of Soul) exists either in a planet or globe and moves that globe. The power of Immortal Soul exists in small planet, a big globe or star in the universe. If it does not exit, it is equal to deceased person. In the Universe, planets which do not contain power of Immortal Soul, globes and stars from which it has left are equal to dead bodies. The dead body perishes and disappears without

The Secret of Bermuda Triangle

Immortal Soul, likewise globes and stars enters in to a dark cave and gets perished and annihilated. The pits are available in burial ground for human beings and black holes are available for globes and stars. The astronomical scientists named them as black holes, in other words can be called as black caves.

A pit in the burial ground for a dead body vis-a-vis the black hole for a star in the sky, both are equal. The person enters in to pit disappears when emerged in the soil, similarly globe enters in to black hole disappears and emerged in the darkness. The power of Immortal Soul exists in the mind of person and carries on his body throughout his life. The power of Immortal Soul (Divine Power) must be existed at one or other place in ocean to carry on oceans in the globe by giving its power and the same power existed in Indian Ocean on the globe. The power which stranded in Indian Ocean during times of Krita Yugam, Threta Yugam and Dwapara Yugam, now in Kali Yugam since 3112 years it did not exist at that place. In the Kali Yugam also, the power remained up to 2000 years in Indian Ocean and now since 3112 years it moved to nearby ocean of Florida State in North America in the area of 20 lakhs to 24 lakhs square kilometers and stranded there itself, from there it's power has been transmitted to all places on the space of globe. All functions are executed in the body due to pivotal force of Immortal Soul, similarly due to pivotal force of Immortal Soul in the ocean; all functions have been performed on the space of globe. This is the secret revealed about power of oceans so far not known to any astronomical scientist. In

The Secret of Bermuda Triangle

Threta Yugam the Ravana knew about power in the ocean which is revealed in Kali Yugam and the discussion about power of ocean has not been taken place from those times of Ravana Brahma to the present time of Prabodhananda Yogeeshwarulu.

TRIANGULAR POWER – BERMUDA TRIANGLE

(Thraithakara Shakti – Bermuda Triangle)

The Sun stays somewhere in the sky and spreads rays on entire globe enabling to glow entire universe, the Immortal Soul (Atma) stays in the mind of a human body pervades its power to entire body, enabling to activate whole body, the power concentrated at one place in the ocean on the space of globe spreads on entire globe and extends its power to primordial elements which are parts of nature, it performs their functions according to their schedule and ensures execution of respective functions in their respective methods. The knowledge of Immortal Soul reveals that it stays in cerebral card distributes its power to all parts of body which are originated from five primordial elements, causing difficulties and comforts according to the fate (Karma) of person in the body. In the same manner, if surface of the globe is treated as a human body, the power of Immortal Soul spreads to primordial elements in the body as well as the power existed in ocean distributed to all parts of globe through knowledge of the Immortal Soul. According to this, there are two types of Spiritualism, one is Spiritualism within the body

The Secret of Bermuda Triangle

and another one is outside body called as worldly Spiritualism. It has been narrated so many times that there exist two types of ghosts such as big ghosts and ghosts also explained the Ghosts as Mortal Soul (Jeevudu). In the treatise “Devils and Ghosts – the True Occurrences” meaning of Big Ghosts was explained as Mortal Soul (Jeevatma) of the Sky, the Air, the Fire, the Water and the Earth. It was narrated earlier in this treatise about power of ocean may be known as the Immortal Soul of Ghost of Water. The Ghosts of the Sky, the Air, the Fire and the Earth also have Immortal Soul. It should be remembered that now it is relevant to discuss only about power of the Water.

The scientific base of Divine Knowledge (Brahma Vidya) is where ever the Mortal Soul (Jeevudu) exists there also existed Immortal Soul (Atma). Whatever it is explained or discussed, it should be according to this science and nothing contrary to be explained. The Mortal Soul and Immortal Soul are twin Souls. Where ever these two Souls are existed, third one, greater than these two, one more Soul exists which is most beneficial than these two is Absolute Soul (Paramatma). Earlier also it was explained first as Mortal Soul (Jeevatma), second as Immortal Soul (Atma) and third as Absolute Soul (Paramatma). It has been repeatedly explained that according to the method of these three Souls only, “the Thraitha Theorem” was originated. The true Divine Knowledge is only to know about method of these three Souls. When elaborated according to Divine Knowledge, Mortal Soul remains at one place but cannot spread in the entire human body and

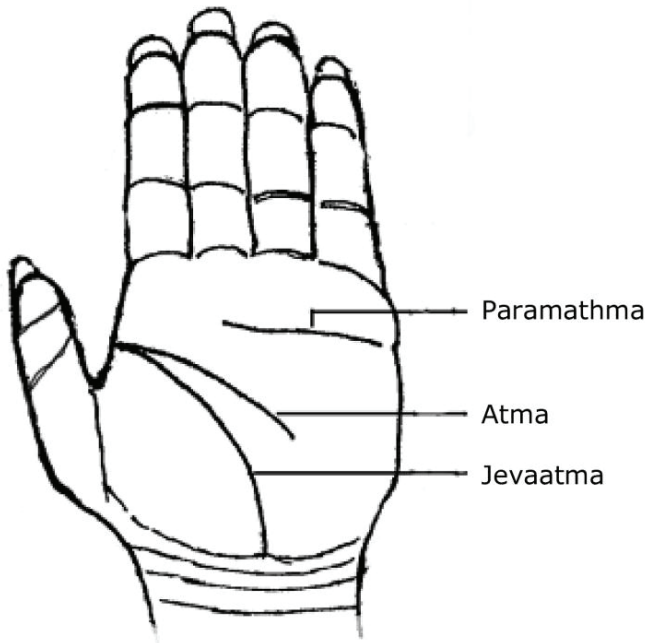

The Secret of Bermuda Triangle

Immortal Soul expanded in the entire human body but cannot restrict to one place. The Absolute Soul subsists in every molecule within as well as outside body. While Mortal Soul and Immortal Soul are related to each other, Absolute Soul does not have any relation with these two Souls. The Mortal Soul and Immortal Soul travels jointly in birth as well as death, Absolute Soul never mingle with both these Souls. The Absolute Soul expanded everywhere and does not travel from one place to another place as it exist here, there and everywhere. The three Souls subsist in a human body while both Mortal Soul and Immortal Soul are joint Souls, Absolute Soul remains separately. This method exists in every one and to know this matter by everybody, three lines were created in the palm at the time our body formation. To identify Mortal Soul and Immortal Soul as joint Souls, two lines started separately in the beginning and joined at the end significantly the line indicating Absolute Soul was created separately above two lines. The issue of three Souls in our body is existed in the palm of every one.

The details of Immortal Soul exist in human body and as well as present in the body of a planet, globe and a star. Symbolically, 3112 years ago, three Souls existed in Indian Ocean replicating three lines present in the hand of a human being, with three angles in triangular shape. In those days no one knew that the symbol of three Souls in triangular shape was present in Indian Ocean. The Triangular power present in

The Secret of Bermuda Triangle

Indian Ocean till 2000 years in Kali Yugam, now since 3112 years exists in the sea located to left side of North America in

Triangular shape. The power of Immortal Soul concentrated on the ocean for about 24 lakhs square kilometers in triangular shape. Everything explained from the beginning might be unbelievable like a magic story, to establish this as truth when one big ship was disappeared in the year 1950 on September 16 in triangular sea area and the same was identified on that day as it was vanished in a particular place only.

Earlier also in the same location, on 5th December, 1947 at a time six American war aircrafts were disappeared, to support above theory as power existed on the ocean. Despite

The Secret of Bermuda Triangle

six aircrafts were disappeared they were unaware that some power was present in triangular area in the ocean. Again when a steamer vanished in 1950, the people came to know that some unknown power was present in that place. Everybody knew that a ship was vanished, later on some ships and aircrafts were also disappeared in a particular area but how it vanished was not known and no one understood the situation happening there. After wards, so many scientists and researchers made efforts to find out the secret and who went there to conduct research also were disappeared. With that, others were afraid of and stopped their efforts to conduct research at that place. Thereafter, triangular area in the ocean was identified and restricted for everyone to enter and it was declared as prohibited area. The area was also named as “Bermuda Triangle” which was known to most of the people as a dangerous area. In these circumstances, matters in that area and persons subjected to dangers remained as mystery.

In the year 1938, a ship carrying 5500 tons load was disappeared with in one or two minutes only without any proofs whether drowned or broken in to pieces. The researchers of the incident finally commented after research as “What happened to that ship, that ocean only knew, the God only knew but no one can know”. One war aircraft while flying in the air just crossed that area had a wireless connection with starting station and the pilot has been informing all matters happening in his cabin to the station from time to

The Secret of Bermuda Triangle

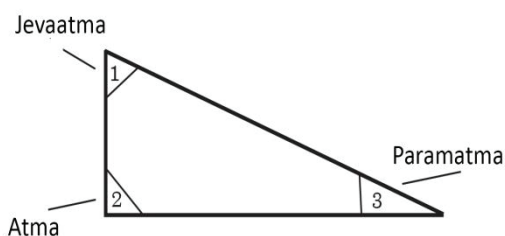

time. Soon after entered in to Bermuda Triangle all meters on the dash board of air craft started showing its needles as they like, those meters did not show the speed, height and to which direction the air craft was flying. The pilot has been informing entire matter to station and it was not moving to the specified direction. The pilot remained in a confused situation. At that moment clouds surrounded the aircraft, a cave appeared in middle and appeared as it was entering in to that cave. Till that time the pilot informed all incidents thereafter stopped as a result of disconnection of radio navigation with the air craft. After that the air craft was disappeared even without leaving any identity. In this way some information was elicited about one air craft. Many such incidents have taken place in the triangle area identified by Americans but finally the fate of either aircrafts or ships was not understood by anybody. The Bermuda Triangle remained as a mystery not understood to even science. The meaning of triangle is three angles. The Bermuda was a small island in that area and it was named in recognition of that area.

In ancient times since three Yugas, the Divine Power or power of Immortal Soul existed in three angle shape in Indian Ocean, information about its power or shape was not known to anybody. Recently, since 60 years some people came to know about one place with three angles in Atlantic Ocean. It is remarkable to note that the power existed with three angles in triangular shape in Indian Ocean, presently exists in Atlantic

The Secret of Bermuda Triangle

Ocean near North America in the same shape. The power which existed at the south side of Bharat Nation for about 39 lakhs years, moved from Indian Ocean to Atlantic Ocean after passing of 2000 years in Kali yugam. If observed existence of power in three angle shape now, how it was existed earlier in Kali Yugam till 3112 years back in Indian Ocean, the reason is like this.

According to Spiritualism, the Immortal Soul subsists in five primordial elements and same exists in the water of ocean. The Immortal Soul subsists jointly with its body for any Ghost (any living being), besides both Mortal and Immortal Soul, there also exists third one the Absolute Soul. In order to know outside about these three Souls, the power of Immortal Soul existed with triangular shape in the water. The Mortal Soul and Immortal Soul exist as joint Souls and Absolute Soul exists separately. To understand this matter in some more detail, it can be seen in triangle also the Absolute Soul existed as a peculiar angle, while both Souls existed as equal angles. The Divine Power (Power of Immortal Soul) exists in the same shape either in Indian Ocean or in Atlantic Ocean, can be seen in the picture shown below.

The Secret of Bermuda Triangle

As shown in the previous page, power on the water spread in to three angles. In the picture 1, 2 corners have been identified as Mortal and Immortal Soul. There is some difference from angle of Mortal Soul at number 1 to angle of Immortal Soul at number 2. The line which went from second angle to third angle is the symbol of Absolute Soul, went horizontally. The line went from Immortal Soul at angle number 2 to angle number 1; it went in 90 degrees angle straight a way to the top. The line went from Mortal Soul angle number 1 towards third angle was bent with 45 degrees was identified as first angle as the smallest, the second angle which was identified as Immortal Soul which resembles as first one and it looks some more bigger in size. The third angle, which is identified as Absolute Soul and different from remaining two angles, looks like a long corner. The Mortal Soul and Immortal Soul renowned as twin Souls in the body existed at the top and bottom, the Absolute Soul existed specially on one side. As it is visible in our hand, Mortal and Immortal Soul on one side and Absolute Soul on the other side, the thraithakaram means triangular shape looks with so much of meaning. It is significant to match with the existence of shape of area on the ocean in accordance with the principles of Mortal, Immortal and Absolute Soul. As visible in the above picture, there is a prohibited ocean area in the Atlantic Ocean and remained as banned area. Whenever the ships or aircrafts enter in to that

The Secret of Bermuda Triangle

area, it becomes a mystery as to where they disappeared and what happened to them.

The biggest intellectuals in the world when tried to find out about the secret, were also vanished. Finally, that matter kept in abeyance as it was not understood by any one and declared as prohibited area so as not to be entered by any one. The power of Immortal Soul subsists in triangular shape area of the ocean. The Immortal Soul says, “I do not remain alone, and to give an indication to that effect where ever I stay, along with me one side Mortal Soul and other side Absolute Soul exists”, for that it created three angles. Whoever knows about Immortal Soul and also about its knowledge, he only can become Intellect of Immortal Soul (Atma Gnani). If he is not an intellect of Immortal Soul (Atma Gnani), whatever be the biggest on the earth in any other matters, Immortal Soul does not respect him. The Immortal Soul respects only the Intellect of Immortal Soul (Atma Jnani). When observed according to this formula, as pilots and captains did not possess the Intellect of Immortal Soul when they entered into the Bermuda Triangle which contains the Intellect of Immortal Soul, they were disappeared by that power and vehicles too. So many research scientists without intellect of Immortal Soul were vanished, when entered in the area contained power of Immortal Soul. If any person contains the Intellect of Immortal Soul (Atma Gnanam) entered in to the area prohibited as dangerous, nothing happens to him on the other hand that power stands

The Secret of Bermuda Triangle

as support to him. If Spiritualists, scientists of Divine Science (Brahma Vidhya) enters and comes out of triangular area of ocean for any number of times, such danger do not occur to them and so far such persons did not enter in to that area.

Innumerable ships and aircrafts were disappeared in Bermuda Triangle in Atlantic Ocean near America, one by one during last two to three hundred years. People knew that which ever went did not return but no one knows what happened to them whether drowned in the sea or blast. No one answered these questions no evidence as well. If anyone questions about this, can be easily escaped by saying how can it be answered when intellectuals with the highest education and scientists minutely analyzed the science did not know about that. Simply, it cannot be escaped just like that as matters narrated so far in this treatise also secrets not known to anyone. After revealing all unknown matters, if not revealed the most interesting matter it doesn't look nice. If the matters related to five worldly sciences, which are not related, whereas, the questions asked are related to Divine Science (Brahma Vidhya Sashtam), which is the sixth science it is quite reasonable to explain matters related to this science.

Some Ships either coming or going from Florida in America were drowned in the ocean either due to technical fault or any other defect but cannot be ascertained those were definitely drowned in the Bermuda Triangle only. In the year

The Secret of Bermuda Triangle

1938 during month of March a huge ship with 426 feet length with 39 crew and 5500 tons weight of items was coming from Briton to America, disappeared within two minutes and it was actually vanished in Bermuda Triangle only. It was confirmed that from the year 1950 they were vanished in that area, British ship in 1938 also disappeared in that area only. In order to find out how ships and aircrafts vanished there, if observed the incidents occurred in 1938 wherein the ship carrying 5500 tons luggage and know about that ship, other matters also can be understood. The huge ship departed from Briton to Florida in America by mistake entered in to Bermuda Triangle without knowing that place as dangerous. While the ship was sailing, one cloud came across on the ocean it pierced in to the cloud and took one minute for entire ship to enter in to cloud. Nothing happened to either ship or crew members, not met with any danger. That ship entered in to a small cloud came across its way with smoke and did not come out. Where about of ship was not known to people on the ground even after the clouds melted and disappeared after some time. After observing this incident the questions may arise like, what happened to ship pierced in to the cloud within one minute? Was it broken or met with an accident? Have the persons died within it? Where do items weighing 5500 tons in the ship have gone? Finally was the ship drowned? The answers to all these questions are like this.

The Secret of Bermuda Triangle

1) Question:- What happened to Ship?

Answer :- Nothing happened to Ship

2) Question :- Was it broken?

Ans :- No.

3) Question :- Was it met with an accident?

Ans :- No accident happened.

4) Question :- Whether persons in it dead?

Ans :- No one was dead and no one got injuries.

5) Question :- What happened to items in the ship?

Ans :- Nothing happened. It remained as it is.

6) Question :- Finally was the ship drowned?

Ans :- Not drowned at all.

When observed the answers to all questions, astonishingly in the last any one can question that if nothing happened, why the ship was disappeared and the answer is like this. In general the Ship entered in to cloud within one to two minutes time and came out from that cloud after few minutes. The matters taken place till the ship pierced in to cloud only known and after that it does not know to any radar. The ship did not come out visibly from cloud whereas the cloud melted and disappeared. Now some people may question as, "When the ship was disappeared unnoticed to all or to Radar system, how it can be told that in general it came out from the

The Secret of Bermuda Triangle

cloud after some time? When the ship was not visible to any one, where is the scope to know about it? Whatever is revealed whether it is knowingly and with consciousness? Whatever stated is very well known and that becomes questionable to all and everyone will be in ambiguity about this. When observed minute by minute about the incidents happened and not known to all is like this.

The huge ship was sailed by Captain Parslow and his assistants normally in to the cloud with smoke. The ship was pierced in to cloud came out in a short time means about in ten to fifteen minutes. After coming out, Captain Parslow looked at compass (diksuchi) of ship while normally sailing, the compass did not show the direction to which they were sailing, and instead it was moving at its will and started showing all directions. When observed he came to know that another compass was also not working, noticed that the speedometer was also not working and understood that no instrument in the ship was working properly. Then they got a doubt that whether they were sailing in Atlantic Ocean. Immediately they sent telegraphic message to the port, through the communication system at that time, no one responded to that message. They slipped into some state of confusion at that moment, they were courageous as the ship was sailing. They did not get so much of doubt as sailing of ship was as usual, with sky on the top and ocean was underneath them. They did not have sun shine and the sky appeared with clouds as if it looks at the time

The Secret of Bermuda Triangle

of cyclone. It is not known to persons in the ship that radar on the earth already knew about disappearance of their ship. After few hours of their journey unexpectedly the sea shore was visible then Captain Parslow could not understand about that location and sea shore. It was understood that ship yard also was not available on that shore; even they did not know the place they reached. The Captain stopped the ship at a distance of half a kilometer from sea shore, reached the shore by bringing down small boats into ocean from the ship. While traveling in small boats they understood that water in the ocean was heavy. After reaching sea shore, they understood that the area was not at all a part of American Land. They did not find anybody in near vicinity and did not find even a small tree. The entire location looked as one type of rock like area and they felt that the atmosphere was not suitable to them. Within ten to fifteen minutes after reaching that place, they had drowsy feeling, got yawning sensation, felt stomach full of meals, felt sleepy and slept where ever they sat. As long as they were conscious, everything happened was known, when they went in to sleep, the matters happened there were not known. As long as they were alert, their mind was in consciousness and was useful like a mirror. It was just like watching in the mirror what ever happened there. After wards what happened there can only be stated by imagination, but cannot be narrated as known directly. As their mind did not awake from sleep, the matters cannot be narrated directly.

The Secret of Bermuda Triangle

Now come back to the questions raised again and look at the answers. The ship did not meet with any accident and did not break. The crew was not dead, and no one among them got even small injury. The items were as it is in the ship. All the answers told are fact. The activities such as, the ship reached to sea shore, persons in the ship reached the shore in small boats and went in to sleep are facts. Afterwards it can be revealed only as per imagination. One more incident occurred on 05th December 1947 in which six American war aircrafts disappeared after the incident taken place in 1938, and discuss directly about them on that day.

The officers of Air Force, a wing of American Military ordered five training aircrafts to hit the target by bombarding with five aircrafts in the ocean as a part of training program. Their aim was the five aircrafts to take off at a time and blast the target earmarked at 500 kilometers distance. One pilot aircraft was to proceed in advance leading these five aircrafts, to inform the situation prevailing there to aircrafts following it. According to indications given by the pilot aircraft, other aircrafts following it were to bombard in that place. As decided, the pilot air craft took off first and with minute's difference, war aircrafts assigned to bombard have taken off. Those aircrafts were to follow the route decided by their officers in advance. The huge ship was disappeared in the year 1938, after 9 years gap American war aircrafts also disappeared in the year 1947. Till that time no one understood

The Secret of Bermuda Triangle

about a special triangle existed on the ocean. Finally, in the year 1950 on 16th September, when one ship disappeared, it was identified as something was happening only in a particular area in the ocean, since then they came to know that the place was in triangle shape and it was called as Bermuda Triangle, till 1950 nobody knew about it with proofs. The pilot air craft entered in to triangle shape Ocean and the pilot did not know with what speed he was flying, how far he was away from the earth, at what height it was flying and to which direction it was flying. The instruments which indicate all the matters have become defunct. Even though electric lights were not switched on, they were glowing on their own. The radio communication with Air Force Center on the earth was cut off; even the air craft was flying. Some white clouds appeared around the way and at last it turned in to a cave with a way in the middle, it appeared that the aircraft moved in to the cave in middle of the clouds. At that moment one cloud came across, and the air craft entered in to that cloud. Till such time the pilot of the air craft was in total consciousness.

After some time the cloud left the air craft and went away. By that time the pilot came to know that his aircraft was landed. The pilot was surprised to see that the air craft which was flying in the air was landed soon after the cloud released and did not understand how it happened. The aircraft was not landed on the run way instead on the normal ground. Surprisingly, he also saw that five aircrafts flew behind were

The Secret of Bermuda Triangle

also landed at some distance. Actually, he felt it as a dream, as he did not understand what happened. Then he went in to sleep not in a position to think about anything. This appears as a story unbelievable by any one, also there is a possibility to call it as a fabricated story. At least some thing can be understood, if analyzed with a research mind.

In view of people of the world, matter of disappearance of ship in 1938 and six aircrafts in 1947 in the ocean, it was thought they were totally unavailable soon after they disappeared. Whereas, it came to light on that day from their mind, the matters happened at that time and the matters recorded in their mind. Since their mind was slipped in to sleep, the information was stopped there only. It is very difficult to know through our mind, the issue which was happened some time back and also which was in their mind at that time. A person can absorb the issue happened earlier and recorded in other's mind, provided the person concentrates with undivided mind, makes his mind empty without any matter, determines mentally about the issue which he wants to know and keep strong will power to know that matter. One should have a strong mental determination with an intention that a particular matter should be known to his mind and to ensure that the mind do not divert on any other matter. While attaining undivided concentration, one should leave aside the memory of a particular matter which he intends to know. When the mind is empty that becomes Unification (Yogam)

The Secret of Bermuda Triangle

and attains undivided concentration called Divine Unification (Brahma Yogam). After remaining in the Divine Unification for some time, it will be known as direct relay from mind of the person who subsists in the incident which already happened, as determined in advance. Those who have mental determination already, after coming out from Unification (Yogam) he only can directly know from the mind of the person who subsists in the incident of past period. It is very difficult to attain the Divine Unification through undivided concentration. Those who attain Divine Unification with strong mental determination, they can only know previous matters.

The matter is not that much easy the way it was explained. If any one wins the mind and tightens it unmoved, finally attains the Divine Unification, even then there can be a possibility that the matter which he wanted to know before attaining the Divine Unification, can also become unknown. There are about ninety people per hundred directly goes to sleep from Divine Unification. Those who do not go to sleep and subsists in consciousness, to whom the mental determination already existed, their mind goes to the mind of a person who was related to the matters of past period and can visualize that information directly. It is more difficult than Divine Unification to know the matter already happened in the past period. Anyone with strong determination can find out the secrets of past period as per the consciousness of that persons mind. The person, who wants to know like that,

The Secret of Bermuda Triangle

should him self control his mental consciousness and win over his sleep. To know the matters happened in the past period, one has to make efforts continuously and finally can find out. It is also possible to reveal the information based on the mind of the person of past period. If the mind of person of that period went in to sleep and forgot that, that information cannot be known. The information happened in 1938 and in 1947 was known only up to the time they were awake. As they went into sleep and mind could not remember, the matters what happened after wards were not known.

The matters happened after wards can only be stated as per imagination and assumptions, but not stated as seen directly, which can be true or false on the other way they cannot be asserted as completely true. What has been narrated so far about ship or air craft was true, since they were already happened. If both the incidents analyzed, the disappearance of one ship and six aircrafts, they happened in different periods yet with a little difference more or less in the same way. After coming out from the cloud the ship was sailing in the ocean and the persons in it reached sea shore in small boats. In case of aircraft, when the cloud disintegrated it appeared to pilot as it was landed on the ground and it was also appeared that five aircrafts departed behind him were already landed. For outside world, either the ship or the aircrafts were vanished and disappeared, the moment they were pierced in to cloud. In view of outside people, the

The Secret of Bermuda Triangle

persons in the ship as well as in aircrafts were safe for some time, even after the ship and aircrafts were disappeared. In the eyes of the world the ship and the aircrafts were disappeared, in view of Spiritualism they were directly visible. At this moment, answers to so many questions are required. Who took away the huge ship to unknown sea shore without notice of crew members? How the cloud came across? When came out from that cloud, how they were found at unknown place? Also in case of air craft the cloud came across, sooner the clouds cleared how the air craft was landed on the ground? Who landed them? How those five aircrafts which followed it also reached that place? Why the cloud only came across for ship and aircraft? Where are they, the sea shore to which the crew members reached, the ground where the aircrafts were landed? So, Are those areas not known to anybody where the ship, crew members went and the aircrafts were landed? For all these questions, it is not possible to get the answers either from the pilot or from Captain Parslow, since they went in to sleep no answer can be found from them. The answers to all these questions can be found only as per imagination but no other way. Among the matters revealed hypothetically, some can be true and some may be false. I am not assuring you entire matter about to discuss as true.

According to my opinion about the ship disappeared in the year 1938, the British ship sailing on the ocean entered in to a powerful triangular area. None of them, either Captain

The Secret of Bermuda Triangle

Parslow or crew members had any Divine Knowledge. Whoever may enter in to that area should possess the Divine Knowledge, if any ignorant without faith in the God enters in to that powerful area, inevitably they experience angry as usual since there is a reason for that. In Threta Yugam itself, the Power of Immortal Soul subsisted in Indian Ocean born as Ravana Brahma and lived in nearby Sri Lanka, as an exemplary to the Divine Knowledge, Unification and Liberation. It practiced and shown to human beings as what is knowledge, how the Unification exists and how mankind can attain Liberation. The Immortal Soul itself descended it's small particle as Ravana Brahma, made efforts to enlighten human beings about Knowledge, Unification and Liberation, human beings were on the side of ignorance previously and in present days, not at all recognized the glory of Ravana Brahma in those days, finally blamed him as ignorant, cruel and womanizer, due to that the power on the ocean got angry. The triangular power existed in those days in Indian Ocean and presently existed in Atlantic Ocean both are one and the same and since then it has been stated that the Ravana Brahma was a part of that power. Is Ravana Brahma does not get angry on people, when watched people telling bad about him? The power gets angry; the moment ignorant enters in to ocean area where it is existed. The power respect intellects and sends without any troubles, it infuriates with angry when see any ignorant. Accordingly, the power in ocean got angry on persons in the

The Secret of Bermuda Triangle

ship but did not torture and gave them an opportunity to become intellects. The power made efforts to convert them as intellects to have faith on the God, it can be one type of punishment as they were separated from their family members permanently who lived together till now. It can be counted as small punishment, in their view it is severe punishment whereas those who do not know Divine Knowledge, they consider this as extreme severe punishment.

In the treatise **“Dayyala – Bhutala Yadartha Sanghatanalu (Devils and Ghosts – True Occurrences)”** it was narrated as “clouds have been playing an important role in the Kingdom and government of God, also explained about activities performed by clouds. The cloud which understood intention of the power existed in triangular shape on the ocean, took birth in a small shape at one kilometer distance to the ship, immediately it increased its shape. The cloud expanded its shape as the ship was nearing; sooner the ship entered into it, the cloud surrounded ship and made everything invisible. Even though after about ten to fifteen minutes, the crew understood that they came out of the cloud, during that period only unimaginable matter not known and unable to find out was happened. In that short period only, the cloud took away ship of such a large size to a planet located at millions of miles distance. The planet does not belong to this solar family and also there was an ocean. Surprisingly, the ship was left on the ocean of that planet near sea shore. As the ship

The Secret of Bermuda Triangle

was sailing on the ocean, persons in the ship had no chance to get any doubt when the cloud left. Within a while when the sea shore was visible, they felt having missed the route, did not know their ship and left their surface of globe.

They came in small boats and saw sea shore, by stopping their ship in the ocean and did not understand as that place belongs to which country and area. In the mean time, the cloud which took them there slipped them into drowsiness and sleep, woke up after one hour. In that one hour time all the memories in their mind were deleted, how it gets deleted in computer. With that they totally became unaware of their past and even do not know that they belong to surface of globe and do not remember even travelled in ship. They have lost their past mental memories and did not know directly what happened afterwards can be told indirectly by imagination. The moment they went into sleep and woke up, they felt as new birth. When old matters have unknown, it is nothing but previous birth vanished. Though birth and body have not changed, it was equal to new birth. There human beings were living on that planet how they are living on the land, possessed good Divine Knowledge. The people went from the Earth also mixed with those intellects, having mingled with people on that planet, these persons have become intellects. In one way it was punishment for the people vanished from the Earth, finally it was better that they were converted as intellects. Likewise, this much story is behind one ship. The reason to

The Secret of Bermuda Triangle

happen all these things was Triangular location in Atlantic Ocean.

Further, the matter about disappearance of American war aircrafts in the year 1947 can be discussed. On that day first pilot aircraft later within few minutes' five war aircrafts started. The first aircraft started from Florida in America was flying on triangle and traveled about 500 kilometers on the ocean. Then entire communication system failed in the aircraft and connection to pilot from the land was disconnected. The five aircrafts flying behind him at 100 kilometers distance also lost connection with this. All meters in the cockpit stopped functioning. As a result it was not known at what height and speed it was flying, at what distance their destiny located. With this the pilot was in some confusion state, not understood what was happening, and was trying his level best and the air craft was flying. All of a sudden, the pilot understood that there was a cloud around the aircraft, was flying in vacuum existed in middle of the cloud. When they flew for some distance in that way, one white cloud came across the aircraft and it pierced in to that cloud. After that the pilot understood that the cloud had left the air craft and it was already landed. The five aircrafts flying behind him also found landed at some distance. After that he got drowsiness and went in to sleep.

Astonishingly, the same incident experienced by the aircrafts following, the way it happened to pilot of the first

The Secret of Bermuda Triangle

aircraft. For them also cloud came across, they also went in to the cloud, by the time they returned from cloud they were on the ground. After that pilots of five aircrafts also went in to sleep. Thereafter, they did not know what happened, and it can be imagined and narrated what was happened there. Whatever imagined may not be totally correct and what was explained till the aircrafts landed on the ground was correct. Those who came in the air craft woke up after one hour. When they woke up, they lost memory which they had earlier. What was happened to the persons who came in the ship, the same thing was happened to these persons like forgetting earlier memories, and they did not even identify themselves. The peculiar thing is, aircrafts were also moved to the planet where ships were reached. The people of America and Briton did not know that persons of American Aircrafts and British ship landed on the same planet.

The persons belonging to both countries landed on the same planet lost the memory even to tell about themselves. These people have mingled with people already subsisted there. The persons of that planet had body height of seven to eight and nine feet and these people had height of five to six feet not only looked shorter but also is less intelligent than them. Though these people have knowledge of driving air craft and ships, when compared they are less intelligent than those people. Those people were not only in forefront in all fields, but were also experts in Spiritual field. If anyone remained as

The Secret of Bermuda Triangle

ignorant without Divine Knowledge, that person was shunted out and not allowed to enter in to village. They told that it is wrong to take birth without Divine Knowledge. All the people belonging to that planet were not only living with Divine Knowledge, but also living peacefully. They did not have politics like us. Whoever was the greatest intellect and ascetic, he was only the king for them. The government was without selfishness. All rulers under the King possessed Divine Knowledge. The persons went from the earth and stayed there at, changed like them and became good intellects.

The people of that area did not bother much about those who came from surface of globe. They did not think even, who are they? Where from they came? They already knew that every now and then like these new persons or new animals come to that place. They also knew that in the past also, the persons who did not live there and the animals which did not exist there came to that place. They also knew that the power invisible to them was brought and left them there. The persons of that locality also knew that those who come there even do not remember even from where they came. They were telling among themselves that those new persons whoever came from their places only to get punishment for sins committed by them, the invisible power divided them from their relatives and brought them here. The residents of that planet are intellects and told that there exists an invisible power and the God subsists behind it.

The Secret of Bermuda Triangle

Those residents revealed that the invisible power brings some persons to punish according to sins committed by them and one cannot refrain from accepting it as truth. Because, the same matters also happens on the globe, but due to ignorance that matter left unnoticed. Some issues taken place on the globe also to be analyzed to ensure what was told by them was true. As per law of the Government, whoever commits mistake they gets punishment. According to law, if any person sentenced to Jail by the court, if implemented, that person is kept in the jail depriving any contact to his relatives, wife, children and friends. As he gets food and water in Jail, keeping him away from his kith and kin only becomes punishment. Any one commits anti social sins against the God, keeping him away from his kith and kin is one type among punishments sentenced by invisible power.

Some persons may get one more question as, in the external world it can be treated as punishment to keep him away from his relatives, since he retains memory and moments cherished with them may trouble him mentally. Whereas, memory power of persons shifted to another planet is totally lost, may not have mental troubles about their relatives. In such case how it can become a punishment? This question is very much reasonable here. There are two purposes for the cloud to move from the Bermuda Triangle (Triangular Place), one is human being should undergo punishment and second is to acquire the knowledge. The

The Secret of Bermuda Triangle

punishment is according to his fate (Karma), but the knowledge does not come according to fate (Karma), whereas imbibes according to his diligence (Shradha). The persons shifted from globe did not have diligence on the knowledge. Since he did not show diligence, he cannot acquire the knowledge and become intellect. In absence of memory power, there is no possibility for him to experience troubles related to previous life. In the circumstances, there was no punishment to suffer or no knowledge for comforts. Now, anyone can question that, there is no meaning to tell that the invisible power took them away with two purposes from the land of globe. Once invisible power executes any work, there cannot be any unaccomplished matter, in absence of that the power does not undertake such task. The memory power or diligence to accomplish the task was not available, on one hand he gets punishment and on the other hand he attains the knowledge.

The God created a situation to human beings in advance to make impossible to possible experience that is only dreaming. The experiences which do not happen in outside world occur in dreams. Normally the man cannot fly in the sky, in dream he experiences flying like birds. Any occurrence can be experienced in dream. The previous memory power was not available to the person moved to another planet, mental troubles relating to previous life do not exist in the conscious position, but contrary in illusion, he gets previous memories

The Secret of Bermuda Triangle

and experiences those mental troubles. In illusory situation there won't be any time limit or time schedule. The troubles experience in one year period outside occurs in ten minutes only in dream. The time and shapes changes in dreams quickly or experienced swiftly, no one can recognize that. When dream is compared with awareness, it looks like an illusion, impossible things become possible. The image of dog changes as lion with in short time; no one can identify and think as how it happened. The dreaming can be a special experience to man. In case, the people went to another planet lost their memory, the fate (Karma) enables them to get past memories in dreams, and makes him to experience those troubles. The dream consists of so many peculiarities that any trouble or comfort not related to this life also comes into experience. The matters not remembered when awakened also came to memory and have been experienced.

According to this, though people went to another planet lost their memory, the experience of fate did not go. In case of matter of Knowledge as stated in Bhagavad Gita "*Shraddhavan Labhate Gnanam*", the person having diligence only can get the knowledge. The elders expressed that if a person has more diligence, he gets more knowledge. The Triangular Power moved 45 persons from earth to another planet and they do not have any interest on the God or the Divine Knowledge and in such case they do not show any curiosity. If there is no diligence, they do not get the

The Secret of Bermuda Triangle

knowledge. If we observe keenly, one scientific formula subsists here. If a person falls in to color, that color is pasted to him. If not that way, if color falls on him, then also the color pasted to him. Similarly, if anyone has no diligence, he does not get the knowledge and not even try to know the knowledge. If seen the answer to a question, is such person cannot become an intellect? The God himself asserted in the form of Bhagawan, that those who have diligence only can get the knowledge and what can be a different answer than that. This answer is from the view of human beings but from the side of the God there is one more answer. To understand that answer clearly it can be explained with a small example.

In the year 1981, I was sitting in Marina Beach near Madras (Chennai). Since it was evening time there was lot of crowd with people. The petty vendors were wandering and selling eatables. One person with boiled ground nut seeds in a basket came near me and shouted as boiled ground nut seeds so as to be heard by me also with an intention that I should purchase from him. Even then I did not purchase ground nut seeds. I did not have the habit of eating light snacks and also had any interest on ground nut seeds. That vendor has wandered once in five minutes for three to four times, shouting that “the ground nut seeds are tasty”. As I did not have any interest, I did not purchase at all. Afterwards, that person came to me and told that “If you do not purchase also no issue, please taste them for time pass” and kept four seeds

The Secret of Bermuda Triangle

in my hands. Since he gave free of cost even without asking, I thought as why to reject, I took those four seeds. When I took those four seeds, I felt they were tasty and had a feeling to eat. Though one side I wanted to eat, as I kept silent till that time, was of thinking that why to purchase now? Since he gave free! Had a feeling that, I should purchase at least for that. Finally, both the things buying and eating happened. When observed the matter happened directly, though I had no interest to eat ground nut seeds, finally could eat since given by the salesman.

One person did not have any diligence on Divine Knowledge and never thought of even knowing that. He saw the preachers several times preaching the knowledge, but neither he known about knowledge nor persons preached. Though the sales person was selling ground nut seeds, who wanted were purchasing, even then I did not purchase as I had no diligence, the knowledge which subsisted as ground nut seeds was preached by the preacher like a small vendor, those who wanted to know have been knowing, but it is common that those who do not have diligence will not be known. When the Guru observed persons without diligence, first he imparts his discourse at free of cost. However, it won't exist in the fate to know the knowledge. The knowledge exists only on the basis of diligence and it won't be available to one who has no diligence. When a person gets a little knowledge without his request at the first instance, he inculcates to know the knowledge followed by diligence gets that way, he starts

The Secret of Bermuda Triangle

getting the knowledge. Initially when I had no interest on ground nut seeds and got four seeds at free of cost, afterwards I wanted to have some more seeds, initially the Divine Power imparts some knowledge to one who has no diligence, afterwards it converts him to possess keen diligence on the knowledge.

The Divine Power acts such way to restrict the density of ignorance on the earth. When the God creates diligence on the knowledge, later on it is imperative for human beings to know the knowledge with their individual diligence. The people carried away from the earth in the years 1938 and 1947, in one way they knew the knowledge based on the diligence created to them also experienced the acts of sin in their dreams. The clouds moved the persons entered in to the Triangular Power on the ocean to another planet, which was not known to human beings, made them to feel experience of the fate in the form of punishment on one side and imparted them knowledge on the other side. The clouds also have subjected fate in the form of punishment without any relation to the knowledge. The clouds have been transferring human beings and other living beings from one place to another place for experience of fate. When observed such action, it can be understood that disappearance of persons on the Atlantic Ocean was action of clouds only. The clouds ensured living beings invisible at one place on the earth and made them visible, to establish their command on such activities. Though

The Secret of Bermuda Triangle

this activity has been happening on the earth, it was not understood to human brains immediately. It was explained earlier in the treatise called “Devils and Ghosts – True Occurrences” that according to its fate, the clouds have been changing the place of living beings either singly or in groups.

In the year 2010 September, heavy rains witnessed in Hyderabad city as it was a good monsoon season. All low lying areas were submerged and water entered into deep basement (cellar) which was dug to construct a big building. It was observed by local people after two days in the morning that a 12 feet length crocodile was found in the basement. The news was spread to everyone, forest officials came and caught it and took it away. Nobody understood on that day, as how 12 feet length of crocodile reached there and that matter was left with that. When think about that, there are no rivers, forests, small ponds, tanks and no places for the crocodiles to live in the near vicinity to Hyderabad. The crocodiles can be seen within two to three hundred kilometers distance surrounding that place. There were no proofs about their presence. If that is the situation, how the crocodile came in to Hyderabad city which always crowded heavily with public? The crocodiles cannot travel like any other animals for longer distance. As per reliable information they live in the small ponds till the water gets dried up. There was no need for that crocodile to come to city fully crowded with people, when all ponds, tanks and rivers are filled with water being the rainy season. That too leaving the

The Secret of Bermuda Triangle

permanent places of water, why it came to a small basement pit? It is very difficult to come to city even in the night time when lights were on without anybody notice. There was no answer from anyone for the question that from where it came to a dwelling place. When analyzed all these, it did not travel and came from anywhere. If anybody has brought and left it there, it means no body has done that. The question remained was, in such case how it reached there? For all these, there is only one answer. How some persons, a big ship and six aircrafts were disappeared from Bermuda Triangle and went to another planet located at some millions of kilometers distance not known to any one, likewise this crocodile came in to a basement pit in Hyderabad. The crocodile was brought by a rainy cloud and dropped it there. No one can be surprised whether a cloud can do such type of action. The cloud transferred six aircrafts within minutes to some other place, in case of crocodile it did not act in the same manner and did not bring within minutes. It kept invisibly in the sky for some time and afterwards left in Hyderabad. These matters need not to be viewed as especially new since all these were already explained in detail in the treatise called “Devils and Ghosts – True Occurrences”. The cloud which can change its shape and disappear can keep anything secretly with in it and can make anything invisible.

Even though nobody can believe that the cloud only vanish those big ship and six aircrafts from Bermuda Triangle

The Secret of Bermuda Triangle

at the same time no one can condemn the fact that they were disappeared from that place. The Divine Power was spread in triangular shape in Bermuda Triangle. The clouds which have been playing an important role in governance of the God, getting the power by touching triangular power subsisted on Atlantic Ocean. The clouds which have been totally activated after touching Triangular power have shown their effect on living beings on the earth. There are so many persons who say that they only believe visible things and do not believe invisible things, were caught in ignorance which they feel as Science. To make such type of people also to think, shown their existence, exhibited volume of their power, clouds not only on the ocean but also performed certain actions on the earth. Those actions have been ignored without knowing as they could not understand when witnessed. If not explained about any matter, it cannot become science. If it is not possible to understand all actions performed by clouds, at least we should know the details about some matters. If we do not know like that, there is a possibility to declare that we do not know science and not intellectuals.

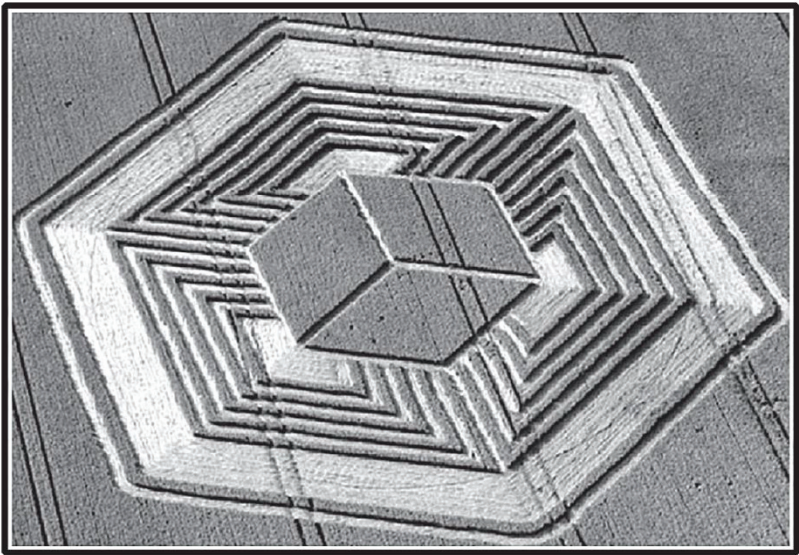

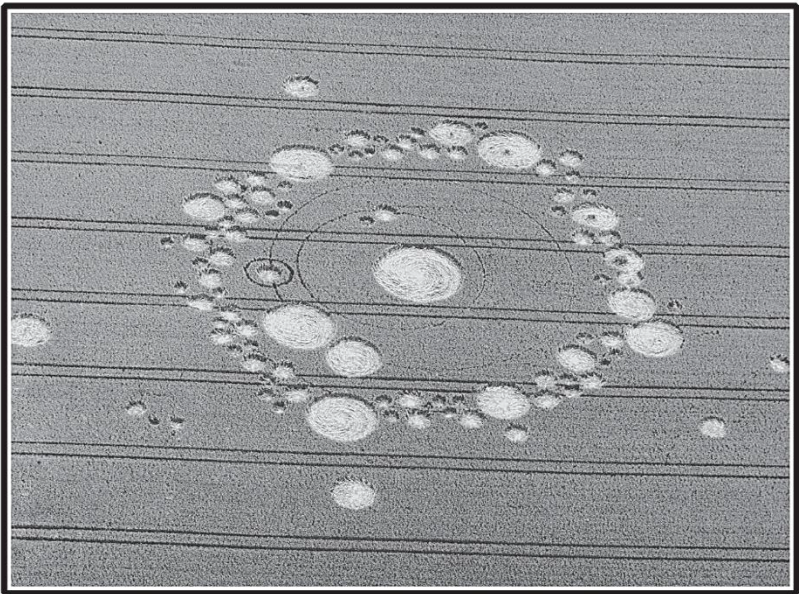

The clouds stated that “You do not know about us. Even after watching this at least you try to understand about us”, this way the clouds thrown challenge to mankind by doing one type of activity on the earth. Now, one particular matter will be explained in detail about the activities not understood by mankind, though the clouds have been executing on the

The Secret of Bermuda Triangle

earth. The clouds have been doing a peculiar action near Triangular Shape in America. One day three persons were flying in a small aircraft in America on a special task among them one person was observing the landed area. There is one special type of stone on their traveling route. With an intention to watch that rock stone from the top, he was watching towards ground where the rock stones existed, also entire surrounding place was visible. Those rock stones were straight and height and entire area was covered with wheat fields. As destiny was near they returned on the same route within one hour. When that person watched place with rock stones and ground in return journey, a picture in square shape was found in plain fields besides rock stones, gave him pleasant view.

That field was covered with grown up wheat crop. One picture was created within one hour which cannot be completed even if hundreds of people work. Some of the standing wheat crop fallen and touched the ground while some crop stood erected. The entire scene was looked like a picture drawn from the top. That shape looks beautiful only for the people who watch from the sky. The picture shaped with one kilometer length, not visible fully from the ground. The height from which either aircraft or helicopter fly, the complete figure is visible. The shapes of figures created when the crop fell down, some of the photos taken from the top, will be shown in the following pages, see them.

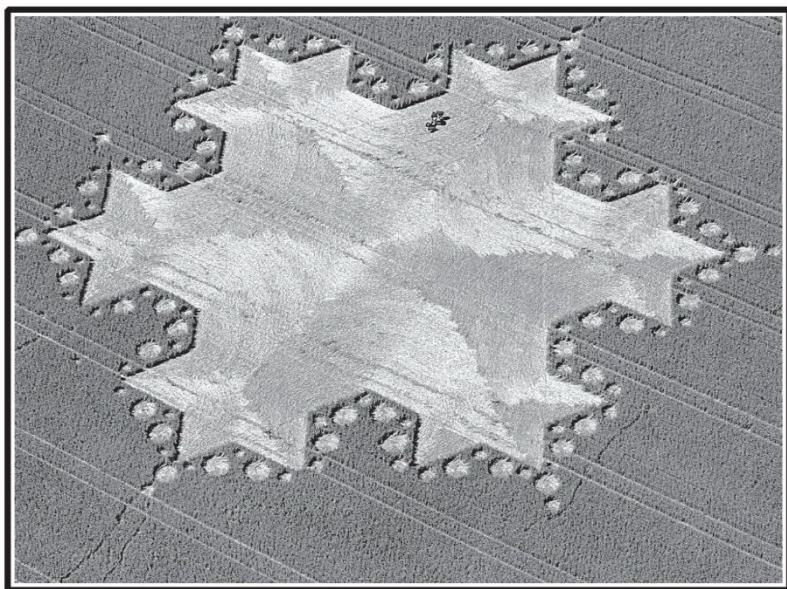

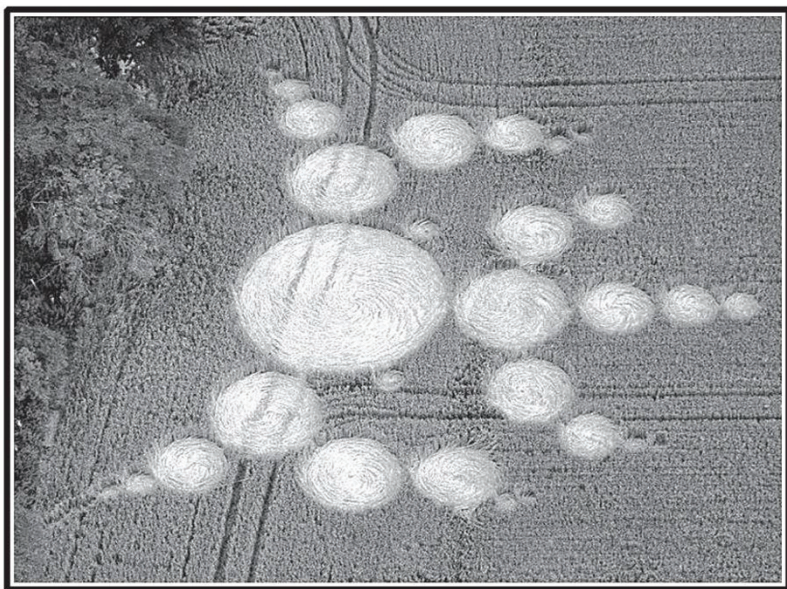

The Secret of Bermuda Triangle

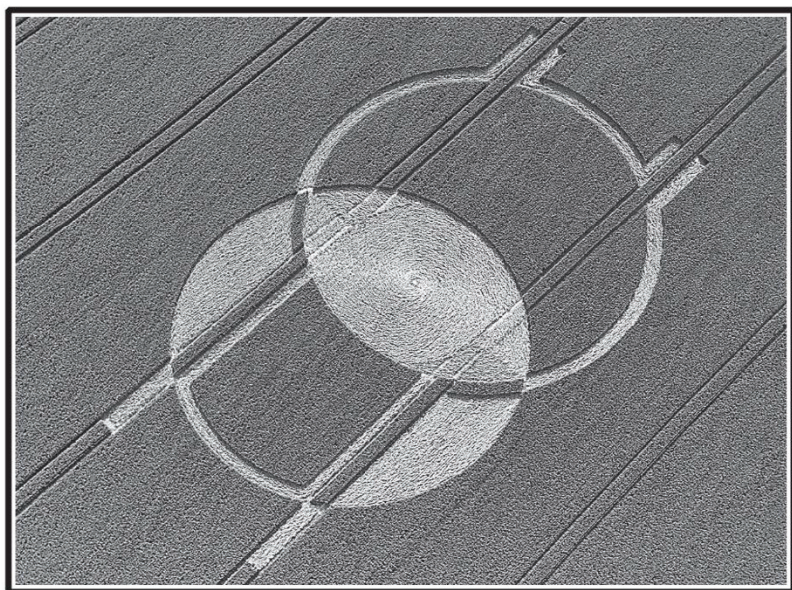

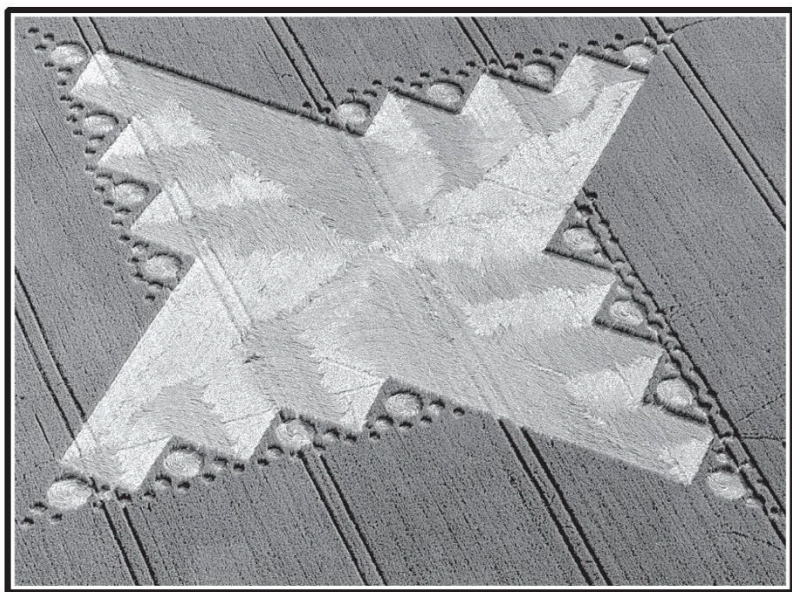

The Secret of Bermuda Triangle

All those shapes were created as pictures over night at some place in American continent, but not drawn by any human being. So many people have been commented in so many ways and who have seen the pictures have called as “Crop Circles”. Some atheists say that everything was created by human being; some of them admit that it is impossible for human beings and only some invisible power created everything. Some people struggled and drawn to establish that they can create those shapes, whereas such pictures can be easily recognized. Many people with unmatched determination have broke down the crop with wooden plates and created shapes to prove that human beings also can draw the pictures, the crop did not bend fully and touched the ground, whatever amount may be pressed down, it just came up so there was no clarity in the shape. The shapes created by the mankind can be specially identified and the shapes created over night were not made by human beings. There was no clarity for the shapes prepared by the human beings and more time and number of persons was required. The shapes which were created within a few minutes that too without notice of anybody were not the creation of human beings. The questions like, how they were created? Which power created them? Have remains as questions only.

The National Geography TV channel shown different shapes called as Crop Circles. The program shown with a title called Yathartha kathalu (TRUE STORIES), narrated that the

Crop Circles remained as a mystery. When no one knew about them, it was stated in advance that the clouds have been doing this activity. The clouds created this type of crop circles to prove existence of their power within minutes. That picture looks as if it is created by an artist; the wheat grass clearly fallen on the ground, so the picture was clearly visible from the top. The above crop circles created by the clouds won't come to the imagination of human beings. It is not possible to tell those figures either as diagram made with floor or shape of some toys and such type of figures are not available on the earth.

IS THERE ANY MEANING FOR THE SHAPES OF CROP CIRCLES!

When observed, the shapes of crop circles are not available anywhere on the earth, they are not the creation of mankind and there could be some meaning for creating so much big shapes in the crop fields. In order to find out the intention behind creation of that shapes with certain specific measurements, first of all who created them should be known. As per information available the clouds have created, where as in view of people some invisible power created. One farmer was coming in the late night to home after working in fields driving the tractor. When it was dark around him, two big bulbs were visible at far of place emitting light. They were not found

The Secret of Bermuda Triangle

on the ground but shining in the sky at 60 to 70 feet height. The bulbs were visible to him looked like coming his side very fast. While the farmers tractor was moving, they came behind on the same route with about 100 kilometers speed over took the tractor and proceeded. The same was seen by the farmer as well as others occasionally. Those lights were natural and they never saw such lights and not known to anybody. Since that was not existed anywhere, as it was very new, the people were thinking that some super power was creating them.

Whatever way it was visible to people, it can be concluded that the clouds only created that type of crop circles. With regard to lights, as explained the clouds are part of governance of the God and have been performing service of the God. Similarly, small planets numbering in millions have been doing service of the God, sometimes they might be roaming on the earth and any planet might have looked like that but not clouds. The biggest vital roles are played by clouds and small roles have been performed by small planets. They perform the assignments which no one can handle in this universe. In the government people and governance are existed, in Divine kingdom living beings and the government which rules them existed. The human beings do not know the evaluation of virtues and sins of each and every individual in each second and process of their execution and implementation have been performed by so many planets, clouds, ghosts, sub ghosts in their respective roles. The

The Secret of Bermuda Triangle

mankind is doing in whatever way he likes not thinking whether it is good or bad. They are acting in such way and with an intention that there is no matter if someone is suffered or lost, it should be favorable, comfortable to beneficial to him. He does not have the feeling that he gets sins if he performs such actions. No one thinks that there is someone observing all his actions and somebody to punish after counting sins and virtues behind him. The rich person feels that whatever he does is taken for granted and political leader proudly feels that none can obstruct his actions. Though he might be the richest person, political leader or top most officials, he is not aware of the fact that there is someone who is bigger and punishes him, exists in his legs, in joints, in eyes and in entire body. If one person is leading the life, he should not forget that there is someone observes him every minute, and punishes him every day. Those who rule people are more in number invisibly than human beings.

The lights visible to farmer traveling in the tractor might be of some small planets. The clouds are most powerful than planets. The clouds can create crop circles without the help from any planet. It can be observed in the above picture, crop circles created by clouds existed in many shapes. In that, there are more circles but do not exist more angles hence construed as circles. There are so many other types of circles created besides what have been shown there. Of them, some are having shape of three crescents of moon and some are

The Secret of Bermuda Triangle

three round shapes. The number 'three' more prominently visible relates to three Souls. The appearance of symbols of crescent of moon related to the knowledge. Finally, the symbols are related to the knowledge of three Souls. The crop circles are shapes created by the clouds remains with great meaning and any particular meaning cannot be attached to them. It is a surprising matter that the pictures cannot be drawn on the paper, were drawn on the wheat grass by clouds can be a fun that our scientists could not explain their details.

If anyone is not in a position to say about Bermuda Triangle or Crop Circles, the science developed till now may not have capacity to explain. As explained, the science is of two types first science is related to Worldly Knowledge and another science is related to Divine Knowledge. The science related to Divine Knowledge is called Super Science and so far known is simple science called as General Science. It is not possible to know in detail about the matter related to Divine Power as per general science. Accordingly, they were unable to know about Bermuda Triangle or Crop Circles subsisted with Divine Power. The Super Science should be taken as base to know about triangles and crop circles. Anyone may say that what are these new words and "Where is the Super Science", for this it can be clarified that the sixth science i.e Divine Science (Brahma Vidya sastram) contains full of Super Science. There is no Divine secret which is not known to the principles of Super Science. The human beings, who know general

The Secret of Bermuda Triangle

science, may think themselves as intellectuals. They might be intellectuals in worldly matters, their intellect do not work with regard to Divine issues. The result of that they do not know about Bermuda Triangle, Crop Circles, Flying Saucers and Aliens. The Super Science facilitates to know about Divine related issues and powers of invisible things. Not showing much concern on general science, in accordance with Super Science the matters relating to Flying Saucers and Aliens can be understood.

WHAT IS FLYING SAUCERS?

Flying Saucers have been discussed by different people in different ways. Some people mentioned that flying saucers were visible in the sky in their location in some countries. Even some people went to the extent that they saw while flying saucers came down and Aliens got down from them. When observed and analyzed their veracity, there is no relation between Flying Saucers and Aliens and both are different. The Flying Saucers as well as Aliens are existed but Aliens do not travel in Flying Saucers. In so many countries the Flying Saucers were seen and thought that they are the vehicles of Aliens but it is not true. There are some millions of small planets subtly alive with physical body in celestial sphere and are parts of Divine governance. The Flying Saucers are one type of small planets and come and go every day but rarely appear to human

The Secret of Bermuda Triangle

beings, might be to establish their existence. The human being have rebirth but no one knows, whereas to establish to some or others at some place, the rebirth have come to their memory. Who got the rebirth has told about previous life, when inquired it found to be reality with this the proof about rebirth confirmed. Though there are so many types of physical and subtle planets in celestial sphere, some more types are unaware. In order to establish there existed some unknown things, the way memory of rebirth comes to someone, the flying saucers and aliens also visible at one or the other time.

Flying Saucers were visible since long and it is peculiar that they were mostly visible in American continent. Perhaps, in the year 1940 one incident took place in America about Flying Saucers. The Americans saw the Flying Saucers several times in the past, wanted to know about them, what are they? Where from they are coming? Who are they in that? In that situation, one day the Flying Saucers appeared to them. Immediately, four war Aircrafts pertaining to American Air Force chased with an aim to land them by any means, in case not possible should shoot them. When the aircrafts reached very closer, released some blue color smoke and became invisible. When the smoke diluted, they were totally invisible. The efforts yielded no results and their details were not known. It is false that Flying saucer was fallen down and such incident so far has not taken place. The Flying Saucer is neither machinery nor vehicle and is a small living planet. As it looks

The Secret of Bermuda Triangle

like a bowl it is wrong to compare with machinery. Since the planet is like a bowl, by mistake human beings described it as traveling machine. The planets called as Flying Saucers descend every day to perform their role in implementation of sins of human beings. No one knows that a special type of Flying Saucers daily comes down at several places, to implement the punishments according to the type of sins of human beings. The human beings, though possess the highest knowledge, have any official position, possesses abundance wealth and whatever the education acquired, no one knows how sins and virtues have been implemented on them. In order to know the implementation method of sins to some extent, one should be perfect in the Spiritual knowledge. Those who do not know Spiritualism, he does not know about himself. When he does not know what he is, he never knows about his KARMA (fate). In that situation, no one can know how the fate (Karma) is coming, how the sins are reaching him, at last in which shape and through whom it has been implemented. It is also not known that Flying Saucers are part of the rulers of our Sin.

DO THE ALIENS EXISTS?

Do the Aliens exist? To this question, the answer is they exist. It is quite common to comment that Flying Saucers visible on the earth; similarly Aliens also visible at some places

The Secret of Bermuda Triangle

on the earth. This type of matters mostly appears in the newspapers. The matters about Flying Saucers have been written by gathering the information appeared in newspapers which is only limited and narrated the remaining information. Again, if anyone asks as what research has been done to reveal about that, it can be stated that lest the Super Science is known, one can say about the matters did not revealed by even Intellectuals and scientists in the world. Now, the matters about Aliens will be explained according to the procedure adopted with regard to Flying Saucers. In fact, Aliens or residents of other planets exists and will discuss whether or not they are residents of other planets (Aliens). Actually, the Aliens are not residents of other planets whereas they are called as persons came from other planets, thinking that they do not belong to this space of globe. In fact, those who are called as Aliens are not the residents of other planet and no such special planet exists and resides depending on the earth. The Aliens and human beings are subsisting on the same land and they are not the residents of other planet. They can be simply called as the residents of other houses.

The Aliens have role in governance of the God. They remain in invisible form at all places, to establish proof of their existence they were visible at some places, may be to give the proof that what has been told is true. Fifteen days back, one young man from Nalgonda District went outside for toilet found shape of head from behind the trees in the light of street

The Secret of Bermuda Triangle

bulbs. He observed a shape was visible peeping through corner from back side of branches of tree of 15 feet height, and bravely recorded in video of his Mobile phone. The TV channels have telecast and the matter was published in newspapers. When observed the scenes recorded in mobile phone, it's hands were visible up to waist came out from back side of the tree. There was no clarity in the picture and looked as a shadow on the water in invisible form whereas did not looked like a physical body. In whatever form it was visible, whether anyone has seen it or not the Aliens are existed.

The Aliens are performing one of the functions in ruling the living beings. They are acting as couriers to carry cancer cells and stored specially with them. They fill their body particularly with cancer cells, where ever required they go to that place. Their main task is to inject cancer cells in to the body of those people, who committed special type of sin in their previous life. The each fate (KARMA) of mankind is in the hands of twelve planets commencing from the Sun and Moon. Those planets handover that fate to so many planets, sub planets, ghosts and sub ghosts who perform under their control to ensure that the fate has been experienced by people. The Aliens are also under the Divine Kingdom governed by planets such as the Sun and Moon. According to sins committed by mankind who were required to experience cancer disease, Aliens inject the cancer cells with them in to those people. If one person gets cancer, it can be definitely

The Secret of Bermuda Triangle

stated that it came only from the Aliens. The reason to tell so definitely is except the Aliens none others have cancer cells with them in the world.

The mankind might have committed not only one type but many types of sins. Someone may ask that from which type of sin the cancer disease comes to person and the Aliens inject cancer cells to the persons having which type of sin. For this question the Aliens only answer like this. The information came from the consciousness of Aliens, has been explained. The Aliens injects cancer cells with the permission of planet “Kuja” Mars (Kuja Graham) in to them to experience those special sins. The official exercises some power in such a way that he shows and describes non guilty person as guilty knowingly even the person not committed any mistake, and not aware of getting sin or not worried about sin. In such case the Sin as a result of that allegation entered in to that officer even without his notice in the part of the planet 'Kuja', which is one among twelve planets. In next birth, the planet “Kuja” permits the Aliens to experience that sin. The Aliens functions under control of the planet “Kuja”, after taking permission from the planet “Kuja”, having informed that cancer disease is result of that sin, injects in to the officer wrongly alleged in the previous birth, from that time cancer disease starts to that person. This way the Aliens are available only to spread the cancer disease. The Flying Saucers also nothing but the planets

The Secret of Bermuda Triangle

with living organism existed to experience one type of sin accumulated by human beings.

The Inspectors and Sub Inspectors in police department and some other persons only have possibility than officers working in other departments to act in such way, brand somebody as guilty and show him as accused even though he did not commit any mistake and was a gentleman. The crimes they have committed without any fear of sin converting as cancer disease in their next life and troubling them. It can be observed that nowadays who are suffering from cancer disease were in their previous birth, headstrong with arrogance of their official power, knowingly even though the person not committed any crime, branded him as guilty and accused as bad person. This is the reason for attack of cancer disease. It is informed to all officers that since the sin will trouble miserably in coming births, to remain without misusing official power and also not to accumulate evil doings in this life. There are so many planets readily available in invisible form, to trouble persons without fear from act of crimes. They are creating earth quakes and tsunamis as per the orders of five primordial elements and twelve planets to trouble them. Hence, it is suggested to acquire the Divine Knowledge and know the ways to come out of sin.

WHY THE EARTH QUAKES AND TSUNAMIS ARE OCCURING?

Every country will have a capital. The “BERMUDA TRIANGLE” consists of Divine Power is the capital of Divine governance in the space of globe. This Divine governance is not ruled by the God himself but the nature with powers delegated by the God. The sins and virtues of living beings from advent of universe have been ruled by five primordial elements, the Sky, the Air, the Fire, the Water and the Earth, which are in nature as per orders of the God. The Ghosts, sub Ghosts, Planets, sub planets and so many others relating to the Nature are working under the five primordial elements called as the Nature. The Flying Saucers and Aliens also exist among those sub planets. The nature has been ruling the kingdom established by the God from creation of universe with due diligence, even it is mentioned as ruling of the God, directly the God does not perform. The Divine ruling is a method developed with all arrangements to implement the sins committed by living beings and mankind. It can be concluded that the God is the biggest but nature performs the governance. The governance of the God is not known so far, the mankind also unaware that who are playing the roles, which is playing Chief role, among them who is small and who is large. When the rulers are not known at the same time their governance cannot be known. These things were narrated in detail in the treatise “the Demons and the Ghosts – the True

The Secret of Bermuda Triangle

Incidents”. The Divine governance is not only being highly impartial but also tough.

It was explained that small planets such as Aliens subsisted to implement one type of sin, so as to understand how the governance of fate (KARMA) was executed by different parts of nature. While one part implements one type of sin, there are different divisions such as planets, sub planets, ghosts and sub ghosts to implement different types of sins with lot of responsibility. The human beings do not have consciousness on the sins, even if elders remind do not think about that. They are knowingly at fault, lest substantiates themselves and commits sins very easily. The human being do not know that even the sin committed is either small or big, it is calculated and recorded in the body itself and there is a vast mechanism to experience the sin. All sins are divided according to some calculation and implemented some by sub planets, some by planets, some by Ghosts, some by sub ghosts and some by the primordial elements which are being experienced by human beings. There are five primordial elements besides innumerable ghosts and millions of sub ghosts are also available. While there are twelve main planets, the planets and sub planets are available in millions. Behind every person so many eyes are watching invisibly and secretly. There are so many powers readily existed to implement the sins. Among sub planets, besides Flying Saucers and Aliens many other

The Secret of Bermuda Triangle

types appointed, each one of them to implement each type of sin separately.

The mankind has been experiencing many types of sins in the form of many diseases. When a person suffers from disease, there is a planet or ghost acting behind it and mankind knows what is visible but not invisible. The sins are implemented by respective powers in different ways to different persons. At one time only one person experiences the fate, persons besides him do not experience at all. For example, if ten members are available, if one person gets stomach pain, he alone experiences, but not others. Sometimes, ten members collectively experience one fate at a time when traveling in a vehicle meets with an accident, all ten persons may get injuries. Similarly, sometimes one complete village, one area, one entire state and entire one country may experience the fate. In such different situations, different planets and ghosts have been in operation.

We wanted to write covering all the above information and started to write with the heading “HOW THE EARTH QUAKES AND TSUNAMIS ARE OCCURING”? On Friday, the 11.03.2011 exactly at 12 noon, my son called me over phone and told to watch TV, in that they are showing that Japan country was affected by Earth quake and Tsunami. When I switched on TV, whatever I wanted to write, everything was directly visible. One day prior to that, we shown the Bermuda Triangle area on the Globe to person besides me and discussed

The Secret of Bermuda Triangle

that some calamity is likely to take place anywhere from Indonesia to Japan opposite to this area. The power in Bermuda Triangle was angry on human beings. Its sight comes from underground and falls on the area which is located opposite. At any time, the primordial elements become violent at the place located opposite side and torture human beings. It was never expected that on the second day after our discussion, anger of the power worked on Japan area. When we were watching TV, the person who heard the matter about Bermuda Triangle, came back and informed us that “Whatever you stated has happened today only”. In fact, we thought that it may take place in future but as a great surprise, it happened on the following day of discussion.

The persons acquiring knowledge asked about the treatise with a title called “The Secret of Bermuda Triangle”, it was stated as the information about Bermuda Triangle will be covered more in that treatise. To explain the location of Bermuda Triangle, it was shown in the globe as existed near America in Atlantic Ocean, very near to a small island called Bermuda and to recognize that area it was called as Bermuda Triangle. It was also called as “Devil Angle” by those who could not understand about accidents occurred in that place and with a feeling there existed some ghost. Despite of this it can be stated that the Divine Power was subsisted there but not the ghost and due to that power only everything had happened. Due to increase of ignorance in human beings the

The Secret of Bermuda Triangle

Divine Power was getting irritation on human beings. Once the tsunami occurred in Indonesia located opposite to triangle area, even then change did not take place in human beings, since not respecting the knowledge and ignorance was on increase, there was a possibility for occurrence of one more calamity due to that triangle. But, it happened on the next day itself.

After few hours of latest Japan destruction only we are writing about happenings of earth quakes and tsunamis. When people of entire country were to be tortured collectively, the sins of all people were bundled at one place, will be implemented for experiencing at a time, this can be action of the biggest ghost's power, but not of small planets and small ghosts. There are five primordial elements in the Nature. Sometimes, both the Air and the Fire jointly becomes violent and kills human beings by torturing dangerously. At some other times, the Air and the Water becomes violent in some places collectively experience the hell. The water and the earth also get violent and ensure earth quakes and tsunamis happened in Japan thereby makes people to experience their sins collectively. Sometimes, only the earth becomes violent and earth quakes take place due to which so many people dies as a result of collapse of so many buildings. The human beings cannot with stand even if any one of the parts of nature becomes violent. In Japan there is one intellectual out of every four persons, but their mind (scientific) power did not work in

The Secret of Bermuda Triangle

front of Divine Power. If any one part of Nature outrages, the destruction takes place in human beings. If daughter cries in front of her mother as, "Oh Mother! Please save me", mother cannot save the child, likewise child also cannot save the mother. The residents of one house or one family have to remain help less in helping one another, listen cries of distress and dies in the nature's destruction. The sins of human beings are only root cause for all these happenings.

The Bermuda Triangle power existed in Atlantic Ocean was earlier in Indian Ocean the same power took birth as Ravana Brahma. He had born on that day to show right path to human beings, to inculcate curiosity in Spiritual field and also to show a model of the Knowledge (Gnanam) and asceticism (Yogam). He remained as an exemplary symbol of Divine Knowledge but human beings depicted him as awful and discussed bad about him and they involved in committing sins. The man kind slowly became ignorant from Threta Yugam to Kali Yugam, not even recognizing the Spiritual education, speaking ridiculously the ascetics who learned Spiritual education. The power of Triangle is not able to tolerate the man kind who is under the impression that their mind power is greater than Divine Power which gives power to everything, and mankind became unfaithful to the God in all aspects. The Triangular Power being center for all Ghosts, Planets, sub planets and sub ghosts in nature, decided to exhibit the strength of Divine Power to mankind. From the Telugu year

The Secret of Bermuda Triangle

Vikruti, it has decided to create destruction among human beings through planets and ghosts. As explained in previous year, from the year 2010 AD (Vikruti Nama Samvatsaram) there will be an increase in heat, rain, cold, wind and possibility for increase in earth quakes, storms, tsunamis and blasts in volcano. There will be a chance for destruction of human beings due to increase of all types of calamities on the earth, anticipating all these disasters, water was dropped from eyes of the statue of Brahman garu who forecast about future to universe and wrote Kalagnanam. So many people have seen oozing of water for whole day from the idol of Brahman Garu in Dharmavaram, Anantapur District. But no one knew, as to why it was happening?

The power existed in Indian Ocean moved to Bermuda Island since some years. The power existed in Indian Ocean had not only established Divine Knowledge in south India, also created temples to know about Hindu principles. Accordingly, there are so many temples in south India which reveals Divine principles so many are not even available in entire world. In the entire universe people became ignorant and did not practice Divine principles, only in India and that too only in south India the principles remain alive and there will be a possibility to reestablish them. The sight of power existed in Bermuda Triangle towards South India is the reason for Divine principles to remain in south India and for all happenings. Those who are against the God, Ghosts and Planets will

The Secret of Bermuda Triangle

experience them hell in the next birth. The earth quakes and tsunamis happens according to a plan and if any danger takes place and pray the God, those who are under his rule do not excuse. The God is not the one who should be prayed at the time of any danger. In case if the God has been requested when the Earth quakes and Tsunamis occurs, he does not support the ignorant who prays him in dangers but only supports the primordial elements which are part of his family. The planets and ghosts never forget each and every sin committed by human beings and trouble by recollecting all their sins.

From the year 1950 human beings have developed general science and degraded in ignorance and did not have any conscious on Divine Knowledge. Some people have converted temples as earning centers; become religious pedantry and blaming the intellects. They have reached a stage where in they accused us as the knowledge preached was not understood by those people. The word “Indu” was narrated with a meaning as knowledge, not understood that the religious pedantry asked to change that word and reached a stage to threaten. The man kind immersed in ignorance of all types and tried to contempt the God. The God is creating earth quakes and tsunamis through the primordial elements that are soldiers under his governance, and have been punishing human beings. In spite of this, he is not utilizing intelligence to research about Divine Knowledge and find out main reason

The Secret of Bermuda Triangle

instead keeping in worldly knowledge and conducting researches on that, and able to explain the details how the tsunamis and earth quakes are coming, but not in a position to find out why they are coming. The mankind is not able to give the reason and not in a position to ascertain whether the details revealed correct or not. The sixth among sciences called Divine Science should be known either to tell the details about what has come such as earth quakes and tsunamis or to tell the reasons of what has already came. Those who do not know the Divine Science can see only physical bodies but cannot see the subtle power exists behind that. Those who do not know the sixth science cannot tell details to anything and the reasons for Tsunamis, Earth quakes and for natural calamities.

The videos recorded by people when earth quakes occurred are seen that those pictures visible make us to think about them. The scenes of earth quake occurred in Japan on March 11, 2011 could be seen as one video camera was in switched on position at that time in office. It was visible that computers on the tables and other items were moving. The computer kept on the table moved towards front and back and finally it fell down. According to their movement, it can be understood the building was also moving to forward and backward. Not only in the earthquake in Japan, in all earthquakes also had items found moving to forward and backward. The situation appears that the earth was moved to both sides. As per the information revealed by the

The Secret of Bermuda Triangle

seismologists, the tremors takes place in the bottom of earth, movements come to the top of the earth and moves it and such movements of earth are called earth quakes. When asked by anybody as why movements comes in the bottom of earth, it was clarified that any empty place in the bottom of the earth is filled up or any empty place available in between rocks and when they move and tremor comes to surface of the earth, that is called as earth quake. The reasons revealed by others are the movements about what they tell should be different on the earth. It should not be like swinging from front to back sides. If the movement takes place at so much depth, reaches to top of the earth the speed should be reduced. The movement happened in the bottom of earth comes to surface, due to pressure from the sides and power for movement, it's speed should be reduced gradually. In case that movement comes to surface, it should be only to one side, since it is on both the sides, it should be thought for a while. It becomes questionable as whether the researchers told is true or not.

It is fact that when earth quakes occurs the buildings moves forward and back ward. Whereas the question arises is whether they are happening as told by the researchers? Or happening in any other manner? Has no answer. Further, one more question comes as, millions of years have been passed since the earth was originated. The earth quakes have been taking place till now and there is no guarantee that it does not happen in future. In that case how many empty places are available inside the earth? At the beginning how many empty

The Secret of Bermuda Triangle

places were existed? If calculated, is the earth full of gaps or empty places? Like such so many questions will continue. All the questions asked are reasonable and in case of tsunamis, there also some questions are coming to light. If the researchers say that whatever revealed is only after thorough research, if believed blindly it becomes illusion. There is a need to question and find out about them. When the earth quakes happened in oceans, it was described as tsunamis, when occurred on the earth the buildings were collapsed. When the tsunami occurred near Japan on March 11, 2011 at 800 kilometers speed per hour, 30 feet height water came to surface of the earth, with that pressure the Tokyo city was brought to dilapidated condition. When the tsunami happened with that much force and speed because of the earth quake in ocean, the power which made the ocean to move that much and made the water that much height is not seen in the earth quakes occurred outside, where in the land is sinking but not going to high. If the land is sunk in the ocean, water has to go down, but going up. The tremors of the earth are moving heavy buildings, even falling down. At some places, buildings remained erect without falling down. After seeing the force which moved buildings, that force can move some water, but cannot lift the water to top. The force which moves buildings can also throw the water, but that force cannot throw the water with some hundreds of kilometers speed. In such case, how water in the ocean got that much speed? This matter also remains as a question.

The Secret of Bermuda Triangle

On March 11, 2011 the ocean came up to the height of 30 feet in Japan with a speed of 800 Kilometers. Whereas we cannot believe the details furnished by persons who claim themselves as scientists and researchers. They are telling with an intention that whatever they tell that is believed but they did not tell knowingly, they are fabricating and telling which suits that but not telling the fact after conducting research specially, and also they do not know what the truth is. Some people have the false notion as they are scientists and researchers not thinking either in case of a tsunami or earth quakes and some other matters, under the impression that they only know and others do not know, dare enough to construe that everybody believes blindly whatever they tell even though they are false. In order to prove that no one is putting any efforts to know the facts about visible things, one issue is explained in detail for example. Everyone knew about attack on WTC towers in America by the Al khaida terrorists. The aircraft hit the towers at 75th of 100th floor towers crashed the tower and was blazed. The petrol in the aircraft might be the reason to catch the fire for two floors down and two floors up along with the floor where the aircraft was attacked. It was visible in television directly what had happened there only five or six floors were caught in fire. On that day the Al khaida terrorists wanted to attack the towers with aircrafts and kill persons in the aircraft and also kill persons residing in the towers, but they might have not thought that the towers falls down in the accident, and occurs that much big accident. The

The Secret of Bermuda Triangle

accident took place was bigger than what they expected. In fact they did not come to knock down the towers, but after seeing the incident terrorist leaders might be surprised that it was beyond their expectations. They might have felt happy as America incurred much bigger loss than what they thought and caused.

We watched directly in TV while WTC towers were falling down one after another, probably everyone might have seen it. One tower was fallen down first and it was visible as if, in Bhagavatam when the Vamana distressed emperor “Bali” on his head he was crushed, went in to the earth straight away without falling either sides. When keenly observed the incident happened which is not known to mankind, while the top floors were attacked, top floors or the floors attacked remained as it is, when floors near to surface crushed into the ground straight away, anyone can definitely get a doubt about the incident. The second tower also fell down visibly in the same way the first tower gone down. It is fact that when the terrorists attacked two towers fell down in front of everyone. The incident happened is fact, but whether the incident took place to knock down the towers commensurate with accident intended by the terrorists. The intensity of attack by terrorists does not commensurate with the incident of falling down of towers. Something or other was fabricated to tell that due to melting of iron only the incident taken place. When analyzed,

The Secret of Bermuda Triangle

there is no possibility for melting of iron pertaining to that many floors.

The main reason to fell down those towers in America is not accident by the aircrafts. What the terrorists planned and what they did is only a little but without their notice, so much was happened. When we saw the way in which towers fell down, it came to our surmise. Some power came there invisibly and placed its legs on those towers and distressed into the ground. If someone says that there are no invisible powers in science and nobody can prove that, what we conclude that according to science you know they are not available, but they subsists as per the science we know. "The science we know is super science, which is only Divine Science". If that is known, not only the issue of towers of America, but issues of earth quakes in Japan and tsunamis in Indonesia also can be understood. The answers to all questions arose out of that will be found. According to the science known, one planet distressed towers in America which were met with an accident and one ghost created tsunami in Indonesia also earth quake in Japan on March 11, 2011. Nobody can estimate the power of Planets and Ghosts. The Earth quakes and Tsunamis have been happening with prior permission of the power of Bermuda Triangle, which is the capital of Divine kingdom. The earth quake on March 11, 2011 in Japan and Tsunami did not happen without notice of power of Bermuda Triangle. These types of many incidents have been happening on the earth,

The Secret of Bermuda Triangle

human beings are not able to understand the factual position behind them. The clouds can move any amount of distance within seconds acting as mediators between the Triangle and Planets and Ghosts. There are so many activities which are invisible and so many secrets existed which cannot be imagined, it is to bring to the notice of people having worldly knowledge that, there are so many unknown secrets in the activities taking place directly visible to the intellect.

The persons know about sixth science, the Divine Science or Super Science only can know about Planets and Ghosts. In olden days who knew about Spiritual education, were only aware of Planets and Ghosts. In order to prove this matter in ancient times itself, the Ravana Brahma made planets such as the Sun and Moon to obey his words and also respect his words, and shown it people. Even, nowadays the small planets have been respecting the ascetics (Yogulu) and following their words. Since ignorance has been increased no one is aware about existence of the Divine Science, resulting the clue about invisible planets and ghosts has gone unnoticed. Since their clue is not known, no one aware about how and why calamities such as tsunamis and earth quakes are taking place. For all those people, whatever is narrated, will remain as unbelievable matters. Even though we explain, it cannot be understood by those who do not possess Divine Knowledge. To know the matters explained by us as hundred percent true, at least some Divine Knowledge should be possessed.

CAN ATHISTS BE CONVERTED AS SPIRITUALISTS?

Some ignorant always attempt to make their arguments only and do not listen to what ever or how much expressed by others, under impression that they only knew everything and whatever matters told by others are not scientific and they cannot with stand for scientific research and do not listen to our words. As those arrogant not to remain in ignorance forever by telling about science, presently the power of Immortal Soul exists in triangular shape in Atlantic Ocean has transferred some of its power to Bharat Nation and gave birth to one person. The Triangular Power subsists in him and remained as a question mark to realize by atheists and rationalists. Any rationalist or atheist, who finds answer to him, will be definitely converted as an intellect. The person, who cannot answer, cannot be a scientist but he is only an ignorant. If he is a scientist, he should answer scientifically, if gives answer, whatever be the atheist he is intellect only. It is not possible for anyone to answer, unless he possesses the scientific knowledge. He may have to admit as he is not a scientist, in the event he remains without answer. The intricacy conferred by the Power of Triangular Immortal Soul is as under.

According to news item appeared in the newspaper on 29.04.2010 a person aged 83 years has not been taking either

The Secret of Bermuda Triangle

food or water for the past 74 years and possessed sound health. His brain also has been functioning actively as if functions for a youth of 25 years. To ascertain veracity of the incident, a team consisting 30 doctors had conducted tests on him for so many months and finally revealed that everything was true. Those who did not believe even after seeing also conducted the tests. After that so many persons commenced to conduct the tests. The news which appeared on that has been reproduced as it is in the next page.

Prahlad Jani

For Seven decades, without eating..!

Mr. Prahlad Jani (Mathaji), visible in this photo stood as challenge to Medical Science. He has been living for 74 years without food or liquids, his age is 83 years. Even then he has no diseases. An experts committee consisting of 30 doctors conducted tests on him and revealed that his brain is functioning actively as if the brain of 25 years old person. Presently he is at Sterling Hospitals in Ahmedabad town of Gujarat State. The DRDE scientists have entered in to scene to thrash out the mystery.

It is known to everyone that each person requires food for doing any work or to maintain health of his body. As per physics power in the form of calories is required to body which is available through food. To maintain temperature in the body, oxygen from lungs and carbohydrates from digestive system have to reach each and every cell and atom of the body. The oxygen is procured from the air inhaled through nostrils and glucose acquired from food, reaches to cell to cell and to molecules in the body. There every element looks like a factory, if the glucose which is food item wants to enter in to it, should possess a gate pass called insulin. The glucose obtains insulin from red blood corpuscles and enters into elements; oxygen attached to red corpuscles in the blood also enters in to elements. The gate pass is not required for oxygen to enter in to elements. The carbohydrates or glucose received

The Secret of Bermuda Triangle

from outside are useful as fire wood burns in the factory, oxygen has the quality to fire and carbohydrates have the quality of burning, both are mixed by the power of Soul called as boiler in the element known as factory. The glucose and oxygen are mixed with the help of power of Soul and glucose is burnt in the oxygen. This activity takes place every second in all the cells and elements in the body. As the flame originated with that activity, the elements always remain hot, with that entire body is hot. If the living body is hot, that indicates the oxygen burns glucose in the elements of that body. If the fire has to continue to burn in the elements, both the oxygen and glucose are always required. If we want that both items, food from mouth and air from nostrils are necessary. According to physical science, if one person is alive, oxygen on one side and food on the other side are required. The fire does not exist if one item is available and the other is not available. If the fire does not take place in body, the body becomes cool and death of a person takes place. If one person is alive, every second the burning activity should take place, ultimately the human beings have to eat food from one side and to inhale air on the other side. The details explained so far is in accordance with the physical science which is fourth one out of six sciences.

When analyzed original matter, the person named Prahlad Jani aged 83 years old from Gujarat State has not taken either food or water for the last 74 years. That type of issue is the biggest challenging task to physical science. According to

The Secret of Bermuda Triangle

this, it is fact that if the food is not taken person will not survive. In case anyone asks that those who did not take food for four to five days they have not died, even if the food is not taken for a few days there is a provision in which glycogen has been converted as glucose and food is arranged, existed in the body. As long as glycogen levels available in the body, man survives otherwise the person dies as the food will not be arranged. That system is sufficient only for a few days and not even sufficient for one month. So far discussed was physical science, the same is fact. Whereas contrary to the physical science, it is fact that 83 years old Prahlad Jani is alive. These both are controversial to each other and the science can never be false. There is no possibility to live contrary to science and either of these should be true another should be false. But practically it is true that the person is alive. All the scientists have been breaking their heads but they could not understand anything.

The man, whatever is intellectual or knowledgeable, neither he is totally intellectual nor knowledgeable, the main principle is that if anyone wants to become totally intellectual or fully knowledgeable, he should compulsorily know the sixth science. In order to realize that when a person knows the sixth science then only he can answer to any question, the triangular power created a power and made him a remarkable question to human beings intellect and knowledge. The main aim of the Triangular Power might be, if that issue has happened the

The Secret of Bermuda Triangle

human beings may recognize sixth science, with that he may become intelligent. The human beings have left so many issues blindly, even if so many incidents happened in the ocean which were not understood, so many questionable and non-comprehensible issues like Prahlad Jani were remained on the earth. He is claiming himself as intellect, though not in a position to answer any thing. They are talking mockery of those who knew the sixth science. Is it not shameful on his part to be called as academician, scientist and intellectual, though not able to tell anything about the Bermuda Triangle, without knowing even why the earth quakes have been happening since ages and what is the history behind them, even not able to tell how Prahlad Jani is alive? When the Divine Knowledge is not subsisted, there is no difference between men and animals, as whatever needs of an animal born on the earth, men also have same needs such as sleep, food and work. It is informed that if anyone wants to become true scientist or true intelligent, he must know the sixth science.

The power subsists in Bermuda Triangle is called as Divine Power. According to human beings calculations, the Power of Immortal Soul also can be called as Divine Power as a mark of respect. The power of the Immortal Soul has been functioning everywhere after creation of the Universe. Some scientists are conducting researches on Bermuda Triangle revealed according to their estimate as "There might be some magnetic power in that place. Due to heat generated from the

The Secret of Bermuda Triangle

Sun, more magnetic power was available in that place and innumerable aircrafts and ships met with accidents". Besides not showing any type of proof, finally they revealed that there exists some power. Majority people told it as magnetic power. Whereas, Magnetic power produced by human beings is different and power of Immortal Soul is different which cannot be created by any one. The Electrical power can be converted as magnetic power and vice versa, but the Power of Immortal Soul cannot be created by any power. The Power of Immortal Soul is existed in the Human Body also existed in the area where the Bermuda Triangle is located. Though it is existed in the Universe in every one in many different ways, the Power existed is same. According to the place of residence, it performs its role. The Power of Immortal Soul subsisted in the ocean performs one type of role, where as it plays another role in human body. The Power of Immortal Soul is alone in the entire Universe, according to its place of residence it exists differently and plays different roles. Only the Immortal Soul is performing all the activities in any living being. If anywhere, any action has been taken place; it is only due to existence of Immortal Soul. Accordingly, the activities performed by mankind, are performed by the Immortal Soul. Though the Immortal Soul is playing many roles in the Universe, the word Immortal Soul is very much acquainted to everyone, nobody knows what are the Immortal Soul and the knowledge of Immortal Soul. Some people are calling Jeevatma (Mortal

The Secret of Bermuda Triangle

Soul) as Atma (Immortal Soul) and some are calling Paramatma (God or Absolute Soul) as the Atma (Immortal Soul). No one knows that the Atma (Immortal Soul) is none of the both. Even though the knowledge of Immortal Soul is important to human beings, they are learning the knowledge of other than the Immortal Soul by treating itself as Immortal Soul.

In the ancient period, the Ravana Brahma decorated three lines with sacred ash (Vibhooti) on Eshwara Lingam, by informing all about these three lines as the lower one is symbol of Mortal Soul, the middle one is symbol of Immortal Soul and the upper one is symbol of Absolute Soul and the knowledge of Immortal Soul exists in the middle which is important to human beings, to know that he put the sectarian mark with crimson powder on the middle line and shown to all. In the same way he also wore and made others to wear that. Even then the details of Immortal Soul have become unknown to Spiritualists of present times. No one is able to tell assertively that particular thing is the Immortal Soul and particular work performed by the Immortal Soul. If known about the Immortal Soul, so many secrets can be known. Now, come to the main matter. There are 26 specific parts to perform specific functions in the body of a person aged 83 years named Prahlad Jani and the Immortal Soul is one among them. Without taking the Immortal Soul, if observed, there are 25 parts including Mortal Soul. When 25 parts function, then only the body will survive. The Immortal Soul only imparts power to perform

The Secret of Bermuda Triangle

respective functions by the individual parts in the body. In case the Immortal Soul is not existed, the body does not have any movement. The Immortal Soul is the owner of entire body. It made Triangular shape as its residence in the Atlantic Ocean, similarly in the head of the body and transmitting power from there to entire body.

The Triangular power created a person called Prahlad Jani on the earth who has not taken either food or water since 74 years, to set an exemplary to Rationalists, Atheists, ignorant and Scientists. He left food from the age of 9 years since his birth, totally not taking either liquids or solids and left even taking the water. He has been living with sound health from then on wards till date. Even though the matter such as how he has been living with good health and without any food is related to physical science, there is no explanation from the physical scientists. The reason is the matter is related to the Immortal Soul. The physical science does not know about the Immortal Soul. The Divine Science only can explain about the Immortal Soul. The persons knowing the sixth science, only has answer to the matter as how he is living without food. When we ask the intellects of the Immortal Soul who knew the sixth science, leaving aside those who only knew four sciences in the world, they told that the Immortal Soul performs all functions in the body. The Immortal Soul is owner of the body and its power expanded in the whole body and exists in each and every molecule. There are some millions of elements in the

The Secret of Bermuda Triangle

body and same power is expanded in all of them. We have already explained that the Immortal Soul which existed in the elements mixes the glucose with oxygen and facilitates to burn. That is what happens in every one's body, but here what is happening in the body of Prahlad Jani which was created specially by the Triangular Power of Immortal Soul, is like this.

Prahlad Jani has been inhaling air from nostrils but has not been taking food from the mouth. The oxygen has quality of burning, goes from lungs to blood corpuscles, and from there reaches each element through blood transmission. The oxygen was available to fire but the glucose was not available to burn. Since he has not taken food, the glucose did not reach there. The power of Absolute Soul exists in every element and mixes the oxygen and glucose and makes them to burn. As explained earlier the Immortal Soul is owner of the body and functions according to the fate of man. There is no other power which operates the Immortal Soul. In body, the Immortal Soul operates all. If the Immortal Soul wants to make body without heat, it makes oxygen and glucose enters in the elements not to burn. In hospitals if oxygen was arranged through nostrils and the glucose was injected in to the blood, even both of them reach the elements, in case the Immortal Soul does not want both of them won't burn. Then the body temperature comes down and becomes cool and the person dies thereafter. In case the Immortal Soul wants, even the oxygen came in less quantity or the glucose came in less

The Secret of Bermuda Triangle

quantity, it makes them to burn properly in the elements, and protects his health. The Immortal Soul is owner of the body either to kill or survive the man. In the body of Prahlad Jani, only oxygen reached to elements but glucose did not reach, despite the Immortal Soul made oxygen to burn. It made his body not to cool down and made it alive. When the glucose was burnt in the elements, polluted material in the form of ash is generated and if that is not discharged outside properly, some sickness may happen. The glucose did not burn in the body of Prahlad Jani, even without glucose, the Immortal Soul made only the oxygen to burn, so there is no pollution at all in that body and healthier than everyone. It is proved that one can live without food if the Immortal Soul cooperates and it is proved and shown with 83 year old Prahlad Jani. The Immortal Soul with whole powers also exists in your body. The Immortal Soul has specially worked and made the oxygen alone to burn without glucose in the body. This matter is not known to Prahlad Jani also physically from outside. Whether, he has achieved anything and did not take food, means it is nothing like that, because he did not achieve anything. In fact he does not know anything. Even though he was not an ascetic, not an intellect and he does not possess any specialty, the specialty of the Immortal Soul existed with in his body only brought identity to him.

At the cost of repetition it can be mentioned that the Immortal Soul is only the owner in any one's body and it can

The Secret of Bermuda Triangle

make the lame man to walk, the dumb man to speak and a dead person alive. If he is alive, it makes him to die for the sake of everybody. In case everybody thinks that he was dead, it surprisingly makes that person to become alive. The Immortal Soul exists in body with all powers and is able to perform any type of function in the body. No one has identified such type of the Immortal Soul. At least, it has gone unnoticed that there existed one Immortal Soul in the body. The Bhagawan himself explained in detail about the Immortal Soul in Bhagavad Gita. In Purushothama Prapthi Yogam it was stated that three Souls existed such as *Mortal Soul, Immortal Soul and Absolute Soul*, they only subsists in our body as three males (*mugguru purushulu*) such as (Mortal Soul) Ksharudu, Immortal Soul (Aksharudu) and Absolute Soul (Purushothamudu), and we have only mentioned them as Thraitha Theorem. When we explained about three Souls as Thraitha theorem basing on three Souls explained in the Bhagavad Gita which is chief treatise to Indus, the pedantry of religions in Indu society without having any knowledge of Immortal Soul, called us as Christians and told that we have preached Christian verses. According to this, it is understood that once up on a time the Indu Religion which had the glory of Divine Knowledge, now it is not in a position to identify which is their religion and which is others religion.

Presently, human beings are in a situation, where in they do not know about the Immortal Soul. If someone shown

The Secret of Bermuda Triangle

four types of magic they are becoming Babas, sing three songs and tell a few words are becoming Swamijis, if chant one verse are becoming scholars. But the matter about the Immortal Soul is not known to Swamijis, Babas and scholars. The Immortal Soul got irritation by seeing that ignorant condition and decided to percolate the knowledge even by punishing people. Therefore, the Immortal Soul which made Bermuda Triangle as its residence, disappeared many aircrafts and ships which went there and transported to other planets with the help of clouds. The people who went there forgot about this world, made them to immerse in that world and made them to learn that knowledge. Those who learned the knowledge that way, again they take birth on the earth and have interest on the knowledge, and will live as intellects. By doing that, the Immortal Soul thought that the ignorance is not developed totally on the earth, and at least some knowledge exists on the earth. In order to impart the knowledge to those who do not have diligence, the Immortal Soul has misplaced so many people in Bermuda Triangle, to punish those who do not care the power of Immortal Soul, those who scold the ascetics with power of Immortal Soul and intellects, it is creating so many natural calamities on the earth with their primordial elements. The human beings are bluntly experiencing them, but not thinking that who is behind natural calamities. The Immortal Soul wanted to open up the eyes of human beings in many ways and to bring them in to the path of knowledge, created a

The Secret of Bermuda Triangle

person like Prahlad Jani and gave a magic posture even to the intellectuals to make them know about the Immortal Soul. Even then, details of activities performed by the Immortal Soul have gone unnoticed, it was under impression that there was no advantage to do such things; it is utilizing persons like us to explain in detail about the Immortal Soul and functions performed by it. When the Immortal Soul within us is explaining the knowledge in detail, it punishes as per its will and wish to those persons who do not listen the knowledge. Instead of facing punishments given by the Immortal Soul it is better to know about the knowledge of the Immortal Soul. Therefore, what I am telling is, in whatever position you are, in whatever official power you have, though you are rich, are a scholar or you are an ordinary man, you are only a toy in the hands of the Immortal Soul. Therefore, begin to know about the knowledge of Immortal Soul (the Atma) at least from now on wards.

To support the one matter how much science required, same way

To condemn the one matter also that much science is required

Untruth pronounced by thousand people will not become truth

Truth refused by thousand people will not become untruth

THE SECRET OF TRIANGLE (BERMUDA TRIANGLE)

The Only Prophet for Three Religions,
Sri. Sri. Sri. Acharya Prabodhananda Yogeeswarulu
